<tr>
<td>---------------</td>
<td>-----------------------------------------------------------------------------------------------</td>
<td>----------------------------------------------------------------------</td>
<td></td>
</tr>
<tr>
<td>11.55am – 12.10pm</td>
<td><strong>Aquatic Exercise for Older Adults</strong></td>
<td>Temoromandibular reasoning in animals: aquatic exercise in older adults. Speaker: Anna Scheer</td>
<td></td>
</tr>
<tr>
<td>12.10 – 12.25pm</td>
<td><strong>Animal Exercise</strong></td>
<td>Physical activity and outcomes in animal exercise: the science of muscular-skeletal outcomes. Speaker: Lesley Goff</td>
<td></td>
</tr>
<tr>
<td>12.25 – 12.40pm</td>
<td><strong>Concurrent Sessions 2</strong></td>
<td>Physiotherapy-assisted weaning in mechanically ventilated patient: the evidence-base for respiratory care and outcomes. Speaker: Lauren O'Connor</td>
<td></td>
</tr>
<tr>
<td>12.30 – 12.35pm</td>
<td><strong>Cardiorespiratory A</strong></td>
<td>No tool used to measure chest physiotherapy affects in mechanically ventilated children. Speaker: Bronagh McArdle</td>
<td></td>
</tr>
<tr>
<td>12.40 – 12.45pm</td>
<td><strong>Disability Symposium</strong></td>
<td>The influence of paediatric simulation-based education on physiotherapy students’ clinical performance during professional practice placement—an observational study. Speaker: Edward Oha</td>
<td></td>
</tr>
<tr>
<td>12.45 – 12.50pm</td>
<td><strong>Cardiorespiratory A</strong></td>
<td>Comparisons of physical therapy performance with usual role and without a disability: a systematic review. Speaker: Leanne Hassett</td>
<td></td>
</tr>
<tr>
<td>12.50 – 12.55pm</td>
<td><strong>Cardiorespiratory B</strong></td>
<td>Evidence on exercise and falls prevention for people aged 60+ years: systematic review to inform the WHOD physical activity guidelines. Speaker: Wilg Krock</td>
<td></td>
</tr>
<tr>
<td>12.55 – 1.00pm</td>
<td><strong>Educators Development</strong></td>
<td>Panel discussion. Speaker: Cathie Sherrington, Anne-Marie Hill</td>
<td></td>
</tr>
<tr>
<td>1.00 – 1.05pm</td>
<td><strong>Gerontology Theme: Falls &amp; Pelvic Health</strong></td>
<td>Maximising lifespan mobility in adults with knee OA for women. National keynote speaker: Kay Crosby</td>
<td></td>
</tr>
<tr>
<td>1.05 – 1.10pm</td>
<td><strong>Neurology Theme: Cerebral palsy</strong></td>
<td>Invited speaker: Vivien Wong</td>
<td></td>
</tr>
<tr>
<td>1.10 – 1.15pm</td>
<td><strong>Occupational Health Theme: Workplace trauma</strong></td>
<td>Maximising lifespan mobility in adults with knee OA for women. National keynote speaker: Vivien Wong</td>
<td></td>
</tr>
<tr>
<td>1.15 – 1.20pm</td>
<td><strong>Pain Theme: Health beliefs</strong></td>
<td>Pain and intellectual disabilities: why, what and how? National keynote speaker: Vivien Wong</td>
<td></td>
</tr>
<tr>
<td>1.20 – 1.25pm</td>
<td><strong>Women's, Men's &amp; Pelvic Health Theme</strong></td>
<td>Maximising lifespan mobility in adults with knee OA for women. National keynote speaker: Vivien Wong</td>
<td></td>
</tr>
<tr>
<td>1.25 – 1.30pm</td>
<td><strong>International Keynote TBC</strong></td>
<td>Maximising lifespan mobility in adults with knee OA for women. National keynote speaker: Vivien Wong</td>
<td></td>
</tr>
<tr>
<td>1.30 – 1.35pm</td>
<td><strong>International Keynote Speaker: Clare Antoni</strong></td>
<td>Maximising lifespan mobility in adults with knee OA for women. National keynote speaker: Vivien Wong</td>
<td></td>
</tr>
</tbody>
</table>

**LUNCH**
Acupuncture & Dry Needling Theme: The science of acupuncture & dry needling
1.40 – 2.05PM
- Facilitating independent pelvic movement to improve core strength and pelvic floor function in women: a qualitative exploration
  Speaker: Stephanie Battatouras
- Effect of caudal needling of the practice of physiotherapists and their coping strategies: a mixed methods systematic review
  Speaker: Priya Kannan
- Acupuncture & Dry Needling: The science of acupuncture & dry needling
  Speaker: Kathryn Long

Animal Theme: Horse and rider
1.40 – 2.05PM
- Weighing up the client case-mix.
  Speaker: Andrea Hams
  Speaker: Maureen McEvoy
- Effect of caudal needling of the practice of physiotherapists and their coping strategies: a mixed methods systematic review
  Speaker: Priya Kannan

Concurrent Sessions 3
1.40 – 2.25pm
- Rising to the Challenge of COVID-19: pivoting to online project-based student placements in contemporary professional settings.
  Speaker: Vidya Lawton
- Developmental outcomes of extremely preterm infants.
  Speaker: Isabel Huf
- Effect of caudal needling of the practice of physiotherapists and their coping strategies: a mixed methods systematic review
  Speaker: Priya Kannan

Educators Theme: Clinical placements
1.40 – 1.55PM
- Sense of Safety: a whole person approach to address relevant to the physiotherapist
  Speaker: Londyn Hawke
- The current utilisation of the “Clinical framework for delivery of health services” from the perspectives of therapists and regulating bodies.
  Speaker: Kamile Muscasco
  Speaker: Maureen McEvoy
- Designing interventions to maintain work ability
  Speaker: Paul Rothmore

Mental Health Theme: Holistic care, enhancing patient and practitioner well-being
1.40 – 1.55PM
- Sense of Safety: a whole person approach to address relevant to the physiotherapist
  Speaker: Londyn Hawke
  Speaker: Maureen McEvoy
- Effect of caudal needling of the practice of physiotherapists and their coping strategies: a mixed methods systematic review
  Speaker: Priya Kannan

Musculoskeletal A Theme: Equity and diversity in physiotherapy
1.40 – 1.55PM
- How can we reduce social inequalities? Three practical steps to make action easier for all physiotherapists.
  Speaker: Jenny Sitcher
- Does the biopsychosocial model speak to health equity? Results from a critical review.
  Speaker: Karime Muscasco

Musculoskeletal B Theme: Osteoarthritis management
1.40 – 1.55PM
- "It can be frustrating... Osteoarthritis management is complex, hampered by inefficient pathways and healthcare systems.
  Speaker: Allison Gibbs
- Why don’t people with osteoarthritis and obesity change their physical activity?
  Speaker: Natalie Packio

Neurology Theme: Stroke
1.40 – 2.15PM
- Optimising upper limb motor therapy after stroke to enhance recovery.
  Speaker: Kate Hayward
- Does the biopsychosocial model speak to health equity? Results from a critical review.
  Speaker: Karime Muscasco

Occupational Health Theme: Work focussed Care
1.40 – 1.55PM
- Interventions to promote work-focused care by healthcare providers for individuals with musculoskeletal conditions: a scoping review.
  Speaker: Yan Yee Kung

Orthopaedic Theme: Post orthopaedic surgery care
1.40 – 1.55PM
- How to improve goal setting and motivation in therapy through the use of the F-words Life Wheel.
  Speaker: Kathy Reynolds

Paediatric A Theme: Neonatal Assessment
1.40 – 1.55PM
- Interventions to promote work-focused care by healthcare providers for individuals with musculoskeletal conditions: a scoping review.
  Speaker: Yan Yee Kung

Paediatric B Theme: Hip-related pain: where are we now?
1.40 – 1.55PM
- Diagnostic accuracy of Hammersmith Neonatal Neurological Examination to predict motor outcomes at 12 months corrected age in very preterm infants.
  Speaker: Grace Howard

Sports & Exercise A Symposium Theme: Hip-related pain: where are we now?
1.40 – 1.55PM
- Hammersmith Neonatal Neurological Examination at 32 and 40 weeks postmenstrual age predicts cognitive outcomes at 12 months corrected age.
  Speaker: Isabel Huf

Sports & Exercise B Theme: Quick practice tips
1.40 – 1.55PM
- Developmental outcomes of extremely preterm infants in the first year: a comparison of infants born at 23+25 versus 25+26 weeks.
  Speaker: Jade Graham

Sports & Exercise C Theme: Hip-related pain: where are we now?
1.40 – 1.55PM
- Injury profiles in female Australian football players with and without hip and groin pain.
  Speaker: Mark Scholes

Sports & Exercise D Theme: Hip-related pain: where are we now?
1.40 – 1.55PM
- Hammersmith Neonatal Neurological Examination at 32 and 40 weeks postmenstrual age predicts cognitive outcomes at 12 months corrected age.
  Speaker: Isabel Huf

Symposium Theme: Hip-related pain: where are we now?
1.40 – 1.55PM
- Diagnostic accuracy of Hammersmith Neonatal Neurological Examination to predict motor outcomes at 12 months corrected age in very preterm infants.
  Speaker: Grace Howard

Cancer, Palliative Care & Lymphoedema

Theme: Physiotherapy & breast cancer rehabilitation

Physical rehabilitation after breast cancer surgery: the role of physiotherapy.
National keynote speaker: Doreen McGhee

Afternoon Tea

PLenary 2

Why me? The role of physiotherapy in Aboriginal and Torres Strait Islander health.
Keynote speakers: Donisha Diff. Scott Wilks, TBC

Women's, Men's & Pelvic Health

Theme: Pelvic organ prolapse

Sports & Exercise

Theme: Athlete health and performance

EXHIBITION HALL
FRIDAY 22 OCTOBER 2021

6.30am

Concurrent Session 5

MORNING TEA

8.45 – 9.00am

Acupuncture & Dry Needling: The role of the practitioner - an update. [Forner, Rod McLean]

Animal Mental Health: Recognising and managing fear and aggression in dogs. [Alison Grimaldi]

Cancer, Palliative Care & Lymphoedema: The role of the team - success stories. [Rob Misson]

Cardiorespiratory Strategies to successfully engage with Aboriginal and Torres Strait Islander communities around the management of chronic lung disease. [Tim Kambouris, Reem Yako]

Disability: Growing up in Australia - my lived experience. Messages for therapists. [Jill Nosworthy]

Educators: Clinical thinking in action: the role of the educator in our schools. [KarenAccessibility]

Gerontology: Bone health and vestibular dysfunction - emerging research and evidence-based practice. [Colesa English, Kate Howard]

Neurology: The association between hearing impairment and postural stability in older adults: a systematic review and meta-analysis. [Jacinta Foster]

Neurology A: The impact of chronic painful musculoskeletal conditions on sexual function. [Jina Foster]

Musculoskeletal A: Presentation of Chronic pain. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology A: Pain and the brain. [Jill Nosworthy]

Musculoskeletal A: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Pain and the brain. [Jill Nosworthy]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]

Neurology B: Idiopathic claudication trajectories during initial Ponsetis management. [Rachael Quinlan]

Musculoskeletal B: Presentation of Chronic pain and sexual dysfunction. [Jill Nosworthy]
Concurrent Session G
11.25 – 12.10pm

Acupuncture in the time of Covid 19 and beyond: challenges, threats and opportunities.
Invited speaker: Pano Barlas
11.30 – 12.05pm
Implement & optimise benefit from patient reported outcome measures (PROMs) of people with shoulder injuries, incorporating rapid assessment & dry needling
Speaker: Jon Clarke
12.00 – 12.10pm
Q & A

Animal
Theme: ACL
Optimising cranial cruciate ligament (CCL) injury outcomes: what can we learn from ACL research in humans?
National keynote speaker: Stephanie Ribay

Aquatic
Theme: Aquatic physiotherapy for neurological conditions
11.25 – 11.40AM
Aquatic physiotherapy for an adult male with acquired brain injury: focus on function, fitness and mental health. A short case presentation.
Invited speaker: Andy Larsen
11.40 – 11.55AM
A case report demonstrating the clinical value of aquatic physiotherapy versus land-based therapy for Axonal Variant Guillain- Barre Syndrome.
Speaker: Natalie Jansone

Cardiorespiratory
Theme: Vestibular/falls
11.25 – 11.40AM
Engaging learners in feedback: lessons from a tried and tested model.
Invited speaker: Chissy Noble
11.40 – 11.55AM
How therapists and exercises can monitor balance, coordination and postural stability.
Speaker: Claire Hackett
11.55AM – 12.10PM
Expanding LGBTQA+ identities in physiotherapy practice. Facilitated by Jeni Setchell with Karime Escobudo, Nathalia Costa and Megan Ross

Educators
Theme: Best practice feedback
11.25AM – 1PM
11.25 – 11.50AM
Invited speaker:
Stephanie Filbay
11.50AM – 12.10PM
Invited speaker:
Claire Hackett

Gerontology A
Theme: Equity and diversity in physiotherapy
11.25 – 11.50AM
(Im)certainty and emotions in low back pain (LBP) care – insights from a qualitative investigation.
Speaker: Nathalia Costa
11.50AM – 12.10PM
Self-efficacy, pre-stroke injury and function in standing and walking.
Speaker: Jemma Keeves

Gerontology B
Theme: Promoting physical activity in inpatient hospital care
11.25 – 11.40AM
How to promote mobility in the acute hospital setting.
Speaker: Jo Nolan
11.40 – 11.55AM
Behaviour change interventions can increase physical activity in hospitalised patients: a systematic review and meta-regression.
Speaker: Nicholas Taylor
11.55AM – 12.10PM
The influence of disempowerment on the sedentary behaviour and physical activity of hospitalised older adults: a grounded theory study.
Speaker: Uhymie Jasper

Musculoskeletal A
Theme: Hip and groin pain
11.25 – 11.40AM
The impact of prior physical conditioning on initial tactical recruit cadets. The DIANE project.
Speaker: Eva Sierra-Silvestre
11.40 – 11.55AM
Another emergency call in – what are prediction factors for episodes of acute dislocation? for an adult male with neurological conditions
Speaker: Karl Espernberger
11.55AM – 12.10PM
The male pelvic floor – (Un)certainty and emotions from home on neck pain and disability among Swiss office workers: short term impact of COVID-19.
Speaker: Simone Dorsch

Musculoskeletal B
Symposium Theme: From mechanisms to management: an evidence informed approach for lateral elbow tendinopathy
11.25 – 12.10PM
Time to task failure with low-load isometric contraction – a useful metric in individuals with lateral elbow tendinopathy.
Speaker: Brooke Coombes
11.40 – 11.55AM
The prognostic value of somatosensory, psychological and comorbid pain features in persistent lateral elbow tendinopathy: a 1-year prognostic study.
Speaker: Venerina Johnston
11.55AM – 12.10PM
Effects of proliferative injections and physiotherapy in improving sensory characteristics in people with chronic lateral elbow tendinopathy.
Speaker: Leanne Bosse

Neurology A
Theme: Self-efficacy and stroke
11.25 – 11.50AM
How to increase self-efficacy and self-management to improve physical activity levels in stroke survivors.
Speaker: Jo Nolan
11.50AM – 12.10PM
Self-efficacy, pre-stroke identity and social networks: important influencers of post-stroke physical activity.
Speaker: Karl Espenberger

Neurology B
Theme: Neurological disorders
11.25 – 11.40AM
Diabetic neuropathy in hands: an endemic complication waiting to unfold. The DIANE project.
Speaker: Eva Sierra-Silvestre
11.40 – 11.55AM
Diabetic neuropathy in hands: an epidemiologic perspective.
Speaker: Jo Nolan
11.55AM – 12.10PM
Tactile shoe insoles to improve balance and gait in adults with diabetic neuropathy: preliminary findings from a randomised controlled trial.
Speaker: Anna Hatton

Occupational Health
Theme: Impacting work
11.25 – 11.50AM
The effect of working from home on neck and pain disability among Swiss office workers.
Speaker: Simone Dorsch
11.50AM – 12.10PM
A snapshot from the world-first paediatric anterior cruciate ligament Registry; what does it tell us about this challenging problem?
Speaker: Kyle Bradford

Paediatric
Theme: Orthopaedics
11.25 – 11.50AM
A guide for therapists working with infants and children with neonatal brachial plexus palsy.
Speaker: Alison Chivers
11.50AM – 12.10PM
Does femoracacetabular impingement syndrome affect self-reported burden in football players with hip and groin pain?
Speaker: Mark Scholtes

Symposium
Theme: Hip and groin pain
11.25 – 12.05PM
Cam morphology is associated with early Hip OA features in football players with and without hip and groin pain.
Speaker: Josh Heaney
11.40 – 11.55AM
Speaker: Thomas Astill
12.00 – 12.10PM
The male pelvic floor – new and noteworthy.
Invited speaker: Paul Hodges
11.55AM – 12.05PM
Pelvic floor anatomy and function in standing differs after radical prostatectomy for prostate cancer.
Speaker: Alexander Howe

Women’s, Men’s & Paediatric
Theme: Men’s health
11.25 – 11.50AM
Cranial morphology is associated with early Hip OA features in football players with and without hip and groin pain.
Speaker: Josh Heaney
11.40 – 11.55AM
Does femoracacetabular impingement syndrome affect self-reported burden in football players with hip and groin pain?
Speaker: Mark Scholtes
11.55AM – 12.10PM
Hip external rotation strength is associated with running biomechanics in people with femoracacetabular impingement syndrome.
Speaker: Benjamin Mentiplay

LUNCH
### Concurrent Session C
2.15 – 3.00pm

#### Cardiorespiratory A
**Theme: The impact of COVID-19 on clinical care**

1. 2.15 – 2.30PM
   - **Physiotherapy to COVID-19: a collaboration with global impact.**
   - **Invited speaker:** Peter Thomas
   - **Speaker:** Lisa Beach

2. 2.30 – 2.45PM
   - **Economic evaluation of the Activity and Mobility Using Technology (AMOUNT) rehabilitation trial.**
   - **Speaker:** Marina Pinheiro

#### Cardiorespiratory B
**Theme: Cardiac rehabilitation and cardiac surgery management**

1. 2.15 – 2.30PM
   - **How to: Integrating National Cardiac Rehabilitation Quality Indicators into practice.**
   - **Speaker:** Amanda Buttery

2. 2.45 – 3.00PM
   - **Year in review: updates in exercise training for cardiac conditions.**
   - **Speaker:** Julie Adsit

#### Disability
**Theme: Physiotherapy and quality of life following stroke**

1. 2.15 – 2.30PM
   - **Investigating the effect of exercise interventions on participation and quality of life for adults with cerebral palsy – systematic review.**
   - **Invited speaker:** Steven McPhail
   - **Speaker:** John Mui

2. 2.45 – 3.00PM
   - **How do people communicate about knee osteoarthritis?**
   - **Speaker:** Joanne Connaughton

#### Gerontology
**Theme: Physical activity, AI and e-learning in ageing**

1. 2.15 – 2.30PM
   - **Artificial intelligence (AI): physical activity and aging in a digital era.**
   - **Invited speaker:** Steven McPhail
   - **Speaker:** James Caionz

2. 2.45 – 3.00PM
   - **Feasibility and acceptability of a falls prevention e-learning program for physiotherapists.**
   - **Speaker:** Sze-Ee Soh

#### Mental Health
**Theme: Informed mental health clinical practice**

1. 2.15 – 2.30PM
   - **A clinical roadmap to managing a person with musculoskeletal pain.**
   - **Invited speaker:** JP Caneiro
   - **Speaker:** Joanne Connaughton

2. 2.45 – 3.00PM
   - **How do people communicate about knee osteoarthritis?**
   - **Speaker:** Joanne Connaughton

#### Musculoskeletal
**Theme: Management of musculoskeletal pain**

1. 2.15 – 2.30PM
   - **A clinical roadmap to managing a person with musculoskeletal pain.**
   - **Invited speaker:** JP Caneiro
   - **Speaker:** Joanne Connaughton

2. 2.45 – 3.00PM
   - **Can participatory ergonomics reduce work related musculoskeletal pain in sognographers?**
   - **Speaker:** Krista Sweeney

#### Neurology
**Theme: Disability**

1. 2.15 – 2.30PM
   - **Chronic pain and motor decline in young adults with cerebral palsy.**
   - **Speaker:** John Mui

2. 2.30 – 2.45PM
   - **Characteristics and multidisciplinary team management of functional neurological disorders (FND) in a tertiary hospital.**
   - **Speaker:** Melissa Birnbaum

3. 2.45 – 3.00PM
   - **Rehabilitation with and without active videogame and computer-based (CBT) technologies.**
   - **Speaker:** Heather Weber

#### Neurology A
**Theme: Disability**

1. 2.15 – 2.30PM
   - **The acute swollen knee – to what extent are they post stroke.**
   - **Speaker:** Penny Ireland

2. 2.30 – 2.45PM
   - **Postural control strategies in sitting and highly variable in people with latalaposture.**
   - **Speaker:** Melissa Birnbaum

#### Performance Tracking
**Theme: Telehealth & Cancer**

1. 2.15 – 2.30PM
   - **Implementing telerehabilitation for cancer care.**
   - **Invited speaker:** Su Wen Ng

2. 2.30 – 2.45PM
   - **The future is here: the impact of technology for physiotherapy practice.**
   - **Speaker:** Jennifer Johnson

3. 2.45 – 3.00PM
   - **Can participatory ergonomics reduce work related musculoskeletal pain in sognographers?**
   - **Speaker:** Krista Sweeney

#### Pain
**Theme: Pain**

1. 2.15 – 2.30PM
   - **Pain is a whole person experience – a focus on ‘pain vulnerability’ core.**
   - **International keynote:** Lester Jones

2. 2.30 – 2.45PM
   - **Helping kids stay healthy long enough to “make it” in sport – the role of physiotherapy.**
   - **Invited speaker:** Matt Whalan

### Concurrent Session B
2.15 – 3.00pm

#### Cancer, Palliative Care & Lymphoedema
**Theme: Telehealth & exercise in cancer care**

1. 2.15 – 2.30PM
   - **Exercise improves quality of life and fatigue following first stroke.**
   - **Speaker:** Natalie Fini

2. 2.30 – 2.45PM
   - **Informed cardiac rehabilitation trial.**
   - **Speaker:** Amy Dennett

3. 2.45 – 3.00PM
   - **Increasing long term mobility and participation in persons with history of polio.**
   - **Speaker:** Kristie Sweeney

### Concurrent Session A
2.15 – 3.00pm

#### Cardiac Surgery
**Theme: Joint**

1. 2.15 – 2.30PM
   - **The acute swollen knee – to what extent are they post stroke.**
   - **Speaker:** Penny Ireland

2. 2.30 – 2.45PM
   - **Postural control strategies in sitting and highly variable in people with latalaposture.**
   - **Speaker:** Melissa Birnbaum

3. 2.45 – 3.00PM
   - **Rehabilitation with and without active videogame and computer-based (CBT) technologies.**
   - **Speaker:** Heather Weber

### Mini Keynote 2
**Managing uncertainty and complexity**

1. 1.45 – 2.00PM
   - **Keynote speakers:** Joanne Dennett, Naomi Fitzpatrick, Ellen Lake, Deepali Gupta

### Mini Keynote 3
**Climate change, biodiversity loss and physiotherapy: improving planetary and patient health**

1. 2.50 – 3.00PM
   - **Keynote speakers:** Kathryn Bowen, Jessica Stanhope, Gillian Webb

### Mini Keynote 4
**Sleepless: addressing barriers to good sleep for our patients, and ourselves.**

1. 2.50 – 3.00PM
   - **Keynote speakers:** Kristie Sweeney, Ross Isles

### International Keynote
**Theme: Pain**

1. 2.50 – 3.00PM
   - **International keynote:** Lester Jones

</table>
Cardiorespiratory A
Theme: Surgery: pre-operative to post-operative
10.35 – 11.05 AM
Point-of-care assessment for diagnosis of lung pathology in a cohort of cardiothoracic surgery patients.
Speaker: Duy El-ansary
10.50 – 11.05 AM
Translating research into practice: the addition of physiotherapy to preadmission clinic enhances patient preparedness for elective surgery.
Speaker: Erin Hutton-Meister
11.00 – 11.15 AM
Preventing pulmonary complications after major abdominal surgery – is early ambulation enough?
Invited speaker: Archdeacon Boden
11.20 – 11.35 AM
Rehabilitation at home and the early post-discharge home visit: is it feasible?
Speaker: Carmen Fiorentini
Cardiorespiratory B
Theme: Physiotherapy strategies for COPD
10.35 – 11.05 AM
A behaviour change intervention to reduce sedentary behaviour in people with chronic obstructive pulmonary disease: a qualitative study.
Speaker: Catherine Guan
10.50 – 11.05 AM
Speaker: Elvino Persino-mato
11.05 – 11.20 AM
Blood flow restricted exercise in people with chronic obstructive pulmonary disease: perspectives of lay stakeholders.
Speaker: Elvino Persino-mato
11.20 – 11.35 AM
Year in review – Sedentary behaviour strategies for COPD.
Speaker: Angela Burke
Musculoskeletal A
Theme: GLA:D
10.35 – 10.50 AM
Implementation of Good Life with osteoarthritis in Denmark (GLA:D) is feasible in Australian tertiary public hospitals.
Speaker: Natalie Collins
10.50 – 11.05 AM
Service providers’ perceptions of factors influencing the introduction and sustainability of GLA:D in Australian public tertiary hospitals.
Speaker: Michelle Callisaya
11.05 – 11.20 AM
Program evaluation of GLA:D in Australia: physiotherapist training outcomes and effectiveness of implementation for people with knee osteoarthritis.
Speaker: Christian Barton
11.20 – 11.35 AM
Panel Q&A facilitated by Bill Vicenzino
Musculoskeletal B
Theme: Whiplash
10.35 – 10.50 AM
Trauma-focused cognitive behavioural therapy and physiotherapy for chronic whiplash with comorbid PTSD: a randomised controlled trial.
Speaker: Michele Callisaya
10.50 – 11.05 AM
Accuracy of WhipPredict versus the short form Oswestry Musculoskeletal Pain Screening Questionnaire to predict poor recovery after whiplash injury.
Speaker: Michelle Callisaya
11.05 – 11.20 AM
Do expectations of recovery improve risk assessment for people with whiplash?
Speaker: Alex Griffin
11.20 – 11.35 AM
Clinimetric properties of self-reported disability scales for whiplash: a systematic review for the whiplash core outcome set (CATWAD).
Speaker: Alex Griffin
Neurology
Theme: Spinal cord injuries
10.35 – 10.50 AM
Evidence-based physiotherapy for people with spinal cord injuries: generating, collating and disseminating the evidence.
National keynote speaker: Lisa Harvey
11.05 – 11.20 AM
The effects of chest physiotherapy on regional lung volumes changes in ventilated children using electrical impedance tomography.
Speaker: Bronagh McMahon
11.20 – 11.35 AM
Barriers and facilitators of habitual physical activity for children with cerebral palsy: perspectives from children and parents.
Speaker: Taryn Jones
Neurology
Theme: Cardiorespiratory
10.35 – 10.50 AM
Using technology to improve home-based outpatient physiotherapy for children with respiratory disorders.
Invited speaker: Ray Lang
11.05 – 11.20 AM
The little known benefits of therapeutic alliance for patients and clinicians in chronic pain management.
Invited speaker: Claire Ashton-James
11.20 – 11.35 AM
Assessing the validity and reliability of the Palvex Pain Psychological Screening Questionnaire (PPSQ) in people with persistent pelvic pain.
Speaker: Leanne Slater
Sports & Exercise A
Theme: Exercise prescription how to sessions
10.35 – 11.00 AM
The clinical exercise for the intrinsic foot muscles: applying biomechanical evidence and clinical reasoning to guide exercise prescription.
Speaker: Michelle Francis-Smith
11.05 – 11.20 AM
Assessing the validity and reliability of the Palvex Pain Psychological Screening Questionnaire (PPSQ) in people with persistent pelvic pain.
Speaker: Leanne Slater
Sports & Exercise B
Theme: ACL injuries
10.35 – 10.50 AM
Fear of re-injury following surgical and non-surgical management of anterior cruciate ligament injury: the NACOX multicentre longitudinal cohort study.
Speaker: Stephanie Fliby
10.55 – 11.00 AM
Surgical versus non-surgical management rationale following anterior cruciate ligament injury – a scoping review and in-practice case study.
Speaker: David Drenn
11.05 – 11.20 AM
Prevalence and factors associated with pre-injury-related pelvic girdle pain in Western Sydney women.
Speaker: Dragana Coricica
11.20 – 11.35 AM
Patient and clinician perspectives on pelvic floor dysfunction and pelvic floor therapy after gynaecological cancer treatment.
Speaker: Robyn Brennan
Sports & Exercise C
Theme: Pelvic Health
10.35 – 11.00 AM
Fear of re-injury following surgical and non-surgical management of anterior cruciate ligament injury: the NACOX multicentre longitudinal cohort study.
Speaker: Stephanie Fliby
10.55 – 11.00 AM
Surgical versus non-surgical management rationale following anterior cruciate ligament injury – a scoping review and in-practice case study.
Speaker: David Drenn
11.05 – 11.20 AM
Prevalence of radiographic bipedal and patellofemoral osteoarthritis in anterior cruciate ligament deficient knees 12 years post-injury.
Speaker: Sue Keays
11:20 – 11:35 AM
Intensive supervised rehabilitation versus less supervised rehabilitation following anterior cruciate ligament reconstruction. A systematic review and meta-analysis.
Speaker: Andrew Gamble
Women’s, Men’s & Pelvic Health
Theme: Pelvic Health
10.35 – 10.50 AM
Screening for psychosocial factors in individuals with pelvic pain. An e-Delphi study.
Speaker: Judith Thompson
10.55 – 11.00 AM
Point-of-care assessment for the whiplash core outcome set (CATWAD).
Speaker: Alex Griffin
11.05 – 11.20 AM
Assessing the validity and reliability of the Palvex Pain Psychological Screening Questionnaire (PPSQ) in people with persistent pelvic pain.
Speaker: Leanne Slater
11.20 – 11.35 AM
Changes in perceptions of telehealth for physiotherapists in response to the COVID-19 pandemic and restrictions imposed on in-person consultations.
Speaker: Vicki Piarravici
11.30 – 11.45 AM
Experiences and perspectives of pelvic floor dysfunction and treatment in women with breast cancer: a qualitative study.
Speaker: Udara Colombo
Concurrent Session 10
11.40AM – 12.40PM

Cardiorespiratory A
Theme: Exercise and women’s health
11.40AM – 12.10PM
What is known about women’s risk factors for injury in female athletes: A review of different methods of injury epidemiology.
Invited speaker: Andrea Mosler
12.10 – 12.25PM
A consumer-created infographic improves knowledge about physical activity and self-efficacy to engage in physical activity.
Speaker: Jodie Dakic
12.30 – 12.45PM
Screening and management of pelvic floor symptoms in exercising women: online survey of 636 health and exercise professionals.
Speaker: Bishop Simpson
12.45 – 1.00PM
Influences on participation in pelvic floor muscle training: a systematic review and meta-synthesis of the qualitative literature.
Speaker: Rebekah Gilmour

Cardiorespiratory B
Theme: Interventions in chronic lung disease and breathlessness
11.40 – 11.55AM
Year in review: CFTTR modulator therapies and the changing face of cystic fibrosis care.
Speaker: Michelle Wood
11.55AM – 12.10PM
Telehealth-preferred outpatient physiotherapy compared to in-person care for children with cystic fibrosis: a randomised controlled trial.
Speaker: Ray Lang
12.10 – 12.25PM
Synthesis of ‘within workshop’ feedback: reflecting learning experiences of health professionals in the practical management of chronic breathlessness.
Speaker: Erin Lyons
12.25 – 12.30PM
Clinical usage of non-invasive physiotherapy in cystic fibrosis centres across Australia: a cross-sectional survey study.
Speaker: Molly Foycroft
12.30 – 12.35PM
What purposes are achievable with Bubble PEPP? The performance characteristics of a water-based oscillating Positive Expiratory Pressure device.
Speaker: Majlea Leech
12.35 – 12.40PM
Physiotherapy service provision to respiratory medicine inpatients with COPD or chronic heart failure at an acute tertiary Melbourne Hospital.
Speaker: Nicola Elisego

Neurology A
Theme: Technology in Physiotherapy
11.40 – 11.55AM
The treatment of focal spasticity to improve function in people with neurological conditions.
Invited speaker: Gavlin Williams
12.10 – 12.45PM
Randomised controlled trials do not adhere to focal spasticity guidelines: a systematic review.
Speaker: Edwina Sutherland
12.45 – 1.00PM
Feasibility and reliability of a Paediatric examination of coordinated movement (PECM) in children with neurodevelopmental disabilities.
Speaker: Jodie Dakic
1.00 – 1.15PM
The cost, barriers, and challenges of including virtual reality in neurological rehabilitation? A scoping review.
Speaker: Suzanne Gough

Pain
Topic: Pain general
11.40 – 11.55AM
Can a consumer-focused website for low back pain change health literacy, treatment choices and clinical outcomes? A randomised controlled trial.
Speaker: Paul Hodges
11.55AM – 12.10PM
Effects of exercise on pain in people with Parkinson’s disease: a systematic review.
Speaker: Aline Post
12.10 – 12.30PM
Walking, cycling and swimming for the prevention and treatment of low back pain: a systematic review with meta-analysis.
Speaker: Lisa Macomber
12.30 – 1.00PM
Factors associated with caring for low back pain when genetics and the familial environment are considered.
Speaker: Thomas Patterson
1.00 – 1.15PM
A CBCT-based group movement program is associated with functional and psychological improvements in people with chronic pain: pilot findings.
Speaker: Marinda Rothmann

Cardiology A
Theme: Cardiovascular and respiratory rehabilitation
11.40 – 11.55AM
Immediate response to subcutaneous injection is associated with conservative care outcomes for shoulder pain.
Speaker: Darrin Marks
12.10 – 12.25PM
The work and quality of life impacts of persistent shoulder pain in younger people.
Speaker: Ilana Ackerman
12.25 – 12.30PM
Immediate response to subcutaneous injection is associated with conservative care outcomes for shoulder pain.
Speaker: Darrin Marks
12.30 – 12.35PM
What purposes are achievable with Bubble PEPP? The performance characteristics of a water-based oscillating Positive Expiratory Pressure device.
Speaker: Majlea Leech
12.35 – 12.40PM
Physiotherapy service provision to respiratory medicine inpatients with COPD or chronic heart failure at an acute tertiary Melbourne Hospital.
Speaker: Nicola Elisego

Neurology C
Theme: Shoulder
11.40 – 11.55AM
The acute effects of aerobic exercise on balance in chronic stroke.
Speaker: Christopher Mackay
12.10 – 12.25PM
Lateropulsion following stroke: asymmetry in adults with chronic stroke.
Speaker: Christopher Mackay
12.25 – 12.40PM
Postural control in children with developmental coordination disorder: a systematic review of clinical measurement tools.
Speaker: Benjamin Johnston

Neurology B
Theme: Spasticity
11.40 – 11.55AM
Five-year follow-up of the Schroth therapy for scoliosis: professional and parents’ views.
Speaker: Ramona Clark
12.10 – 12.25PM
Soft-cast.
Speaker: Nathalia Tan
12.25 – 12.40PM
The cost, barriers, and challenges of including virtual reality in neurological rehabilitation? A scoping review.
Speaker: Suzanne Gough

Neurology D
Topic: NDIS & Other
11.40 – 12.10PM
Physiotherapists influencing timely and sustained return to work in South Australia.
Speaker: Cassandra Zaina
12.10 – 12.25PM
Multiple stakeholders’ views of vocational rehabilitation following brain injury in Queensland, Australia: a qualitative study.
Speaker: Vanessa Johnston

Geriatric rehabilitation
12.20 – 12.25PM
Geriatric rehabilitation inpatients roam at home!
Invited speakers: Katherine Lawler, Anne-Marie Hall, Kyle Radford
12.25 – 12.40PM
Panel discussion: Managing people with dementia.
Invited speakers: Katherine Lawler, Anne-Marie Hall, Kyle Radford
12.40 – 12.50PM
It’s not hands-on therapy, so why is it relevant? A systematic review.
Speaker: Claudia Didyk

Gerontology
12.20 – 12.25PM
The health economic outcomes of an outpatient musculoskeletal physiotherapy delivered by telehealth: a systematic review.
Speaker: Sarah Kitcher
12.25 – 12.40PM
The telehealth experience in physiotherapy outpatient services during the COVID-19 pandemic.
Speaker: Dragana Cepina
12.40 – 12.50PM
The health economic outcomes of an outpatient musculoskeletal physiotherapy delivered by telehealth: a systematic review.
Speaker: Sarah Kitcher

Occupational Health
12.35 – 12.40PM
Immediate response to subcutaneous injection is associated with conservative care outcomes for shoulder pain.
Speaker: Darrin Marks

Women’s, Men’s & Pelvic Health A
Theme: Innovative delivery of physiotherapy services
11.40 – 11.55AM
Early intervention gynaecology service.
Speaker: Laura Restoux
11.55AM – 12.10PM
Are Indigenous people in regional, rural and remote Australia missing out on culturally responsive women’s and men’s health physiotherapy?
Speaker: Kerstin MacPherson
12.10 – 12.25PM
Telehealth continuity education classes: a feasible alternative to in-person classes.
Speaker: Marielle Collings
12.25 – 12.45PM
Telehealth for Women’s Men’s and Pelvic Health Physiotherapy: increasing service delivery to regional, rural, and remote Australians.
Speaker: Kerstin MacPherson

Women’s, Men’s & Pelvic Health B
Theme: Exercise and women’s health
11.40 – 12.10PM
Managing bone injuries in sport.
Invited speaker: David Spurrier
12.10 – 12.25PM
Risk factors and management of lumbar bone stress injury in young fast bowlers.
Invited speaker: Kevin Sims
12.25 – 1.00PM
'Physio's not going to repair my pain.' Understanding what people with dementia think of physical therapy in rural, and remote Australians.
Invited speaker: Sandeep Weerackody
1.00 – 1.15PM
What is known about women’s risk factors for injury in female athletes: A review of different methods of injury epidemiology.
Invited speaker: Andrea Mosler
1.15 – 1.30PM
A consumer-created infographic improves knowledge about physical activity and self-efficacy to exercise.
Speaker: Jodie Dakic
1.30 – 1.45PM
Influences on participation in pelvic floor muscle training: a systematic review and meta-synthesis of the qualitative literature.
Speaker: Rebekah Gilmour

Women’s, Men’s & Pelvic Health C
Theme: Exercise and women’s health
11.40 – 12.00PM
Screening and management of pelvic floor symptoms in exercising women: online survey of 636 health and exercise professionals.
Speaker: Bishop Simpson
12.00 – 12.20PM
Identifying the need for pelvic floor rehabilitation among rural, and remote Australians.
Speaker: Kerstin MacPherson
12.20 – 12.35PM
Identifying the need for pelvic floor rehabilitation among rural, and remote Australians.
Speaker: Kerstin MacPherson
12.35 – 1.00PM
Identifying the need for pelvic floor rehabilitation among rural, and remote Australians.
Speaker: Kerstin MacPherson
1.00 – 1.15PM
Identifying the need for pelvic floor rehabilitation among rural, and remote Australians.
Speaker: Kerstin MacPherson
1.15 – 1.30PM
Identifying the need for pelvic floor rehabilitation among rural, and remote Australians.
Speaker: Kerstin MacPherson
1.30 – 1.45PM
Identifying the need for pelvic floor rehabilitation among rural, and remote Australians.
Speaker: Kerstin MacPherson
### Session 11: 2.25pm - 2.35pm

**Educators**

**Cardiorespiratory A**

- **Topic:** Lifting lifelong learning in cardiorespiratory physiotherapy
  - 1.40 – 1.55PM
  - Clinical reasoning on examination (CREO): An educational response to covid 19 to consolidate and assess evidence informed physiotherapy cardiorespiratory practice.
  - Speaker: Claire Meeus

- **Topic:** The experience of nocturia in hospital: considerations for the gerontologist physiotherapist.
  - 1.55 – 2.00PM
  - Measuring the learning needs of our learners: an investigation of a teaching competency process.
  - Speaker: Caelin Devanny

**Cardiorespiratory B**

- **Topic:** The latest approaches in trauma care.
  - 1.40 – 2.00PM
  - Management of major trauma patients: the role of cardiorespiratory physiotherapy.
  - Speaker: Peter Thomas

- **Topic:** Prospective evaluation of missed musculoskeletal injuries in trauma.
  - 2.05 – 2.20PM
  - Speaker: Senora Hong

- **Topic:** PEP therapy improves lung volumes but does not clearly change admission outcomes in chest trauma: a systematic review and meta-analysis.
  - 2.20 – 2.35PM
  - Speaker: Karte Salita

**Cardiorespiratory C**

- **Topic:** Cardiorespiratory A
  - 1.40 – 1.55PM
  - Invited speaker: Helen Slater

- **Topic:** Digital health technology to support musculoskeletal physiotherapy: routine clinical assessment practices, and willingness to use digital interventions.
  - 2.15 – 2.30PM
  - Speaker: Mark McNeill

### 1.40 – 2.00PM

**Neurology B**

- **Topic:** Multiple sclerosis & FND
  - 1.40 – 1.55PM
  - Multifactorial and sustainable models of care.
  - Speaker: Helen Slater

- **Topic:** Digital health technology to support musculoskeletal physiotherapy: routine clinical assessment practices, and willingness to use digital interventions.
  - 2.15 – 2.30PM
  - Speaker: Mark McNeill

**Cardiorespiratory A**

- **Topic:** The latest approaches in trauma care.
  - 1.40 – 2.00PM
  - Management of major trauma patients: the role of cardiorespiratory physiotherapy.
  - Speaker: Peter Thomas

- **Topic:** Prospective evaluation of missed musculoskeletal injuries in trauma.
  - 2.05 – 2.20PM
  - Speaker: Senora Hong

- **Topic:** PEP therapy improves lung volumes but does not clearly change admission outcomes in chest trauma: a systematic review and meta-analysis.
  - 2.20 – 2.35PM
  - Speaker: Karte Salita

**Concurrent Session 12**

**2.30 – 3.15pm**

- Managing modern complex health conditions with an ancient mindfulness exercise – Tai Chi.
  - **Speaker:** Jenny Lucy
  - **Time:** 2.30 – 2.55PM

- Needling in the foot and ankle region, latest evidence, safety concerns and practical techniques.
  - **Speaker:** Leigh McCutcheon
  - **Time:** 2.55 – 3.15PM

**3.15 – 4.30pm**

- Adherence to exercise programs in community-dwelling older adults following a hip fracture: a systematic review.
  - **Speaker:** Sze-En Soh
  - **Time:** 3.00 – 3.15PM

- How to search PEDro to answer clinical questions about the effects of physiotherapy in older people and neurology.
  - **Speaker:** Acne & Moyle
  - **Time:** 3.15 – 3.30PM

- The association between different trajectories of low back pain and degenerative imaging findings in young adults from the Raines Study.
  - **Speaker:** Mark Hancock
  - **Time:** 3.30 – 3.45PM

- The association between different trajectories of low back pain and degenerative imaging findings in young adults from the Raines Study.
  - **Speaker:** Mark Hancock
  - **Time:** 3.45 – 4.00PM

- Early recognition of cervical arterial dissection in primary care.
  - **Speaker:** Lucy Thomas
  - **Time:** 4.00 – 4.15PM

- 3D tropism of cervical facets is not related to the amount of segmental movement or perceived symptomatic location.
  - **Speaker:** Neil Tuttle
  - **Time:** 4.15 – 4.30PM

**4.00 – 5.00pm**

- Presentations of prizes.

**7.00 – 8.30pm**

- **Conference Dinner**
  - **Tropical Beach Party**

**8.30 – 9.30pm**

- **JoP Meet the editor**
  - **Presenter:** Mark Ellis
  - **Time:** 8.30 – 9.30PM

**9.30 – 11.30pm**

- **Afternoon Tea**

- **PLENARY 6**
  - **Keynote speaker:** Layne Beachley
  - **Time:** 9.30 – 11.30PM

- **Conference Close**
