

WEDNESDAY 30 MARCH 2022

7.30am	REGISTRATION													
8.30 – 12.30pm	<p>Acupuncture & Dry Needling</p> <p>Confirming the science of the practice of acupuncture & dry needling.</p> <p><i>Presenters: Nadine Foster, Jenny Lucy, David Baxter, Panos Barlas</i></p> <p>Room: P 6</p>	<p>Business</p> <p>Resilience – your business health check.</p> <p><i>Presenters: Antony Hirst, Annette Tonkin, David Halvorsen, Nicholas Schuster, Mark Opar, David Brentnall, Tony Ganter, Ibrahim Samaan</i></p> <p>Room: P 9</p>	<p>Emergency Department</p> <p>Emergency department physiotherapy trauma study day.</p> <p><i>Presenters:</i></p> <p>Room: P 7</p>	<p>Disability</p> <p>HALF DAY AM</p> <p>Exploring postural care and body shape distortions (focusing on supported lying).</p> <p><i>Presenters: Denise Luscombe, Bas Jansen</i></p> <p>Room: P 8</p>	<p>Gerontology/ Cancer, Palliative Care & Lymphoedema</p> <p>HALF DAY AM</p> <p>Chronic oedema, the hidden epidemic, and its relationship with cellulitis.</p> <p><i>Presenter: Elizabeth Webb</i></p> <p>Room: P 11</p>	<p>Neurology</p> <p>HALF DAY AM</p> <p>Training higher level mobility in adolescents and adults with acquired brain injury.</p> <p><i>Presenter: Gavin Williams</i></p> <p>Room: P 10</p>	<p>Occupational Health/Mental Health</p> <p>HALF DAY AM</p> <p>Staying mentally healthy at work – worker/workplace/clinician. Is it possible?</p> <p><i>Presenters: Nicole Hughes, Jo Connaughton, Ellen Lake</i></p> <p>Room: P 3 & 4</p>	<p>Orthopaedic</p> <p>HALF DAY AM</p> <p>Pelvic health post major pelvic trauma.</p> <p><i>Presenters: Wendy Bower, Eric Cheung, Ellie Wright</i></p> <p>Room: P 2</p>	<p>Women's, Men's & Pelvic Health</p> <p>HALF DAY AM</p> <p>Bowels and biofeedback. A case study workshop with integrated medical, nutritional and physiotherapy management.</p> <p><i>Presenters: Chris Gillespie, Allison Bryant, Alyssa Tait</i></p> <p>Room: M 1 & 2</p>		<p>Paediatric</p> <p>OFFSITE</p> <p>Sports-focussed intervention and enabling sports participation for children and youth with disabilities – from entry-point to elite competition: A practical workshop for physiotherapists.</p> <p><i>Presenters: Georgina Clutterbuck, Sarah Reedman, Kerry West, Sean Tweedy</i></p>	<p>Animal</p> <p>HALF DAY AM OFFSITE</p> <p>The integrated approach to management of equine stifle injury.</p> <p><i>Presenters: Albert Sole Guitart, Craig Jones</i></p>	<p>Aquatic</p> <p>HALF DAY AM OFFSITE</p> <p>Aquatic aerobic and resistance exercise training for adults.</p> <p><i>Presenter: Anna Scheer</i></p>	
10.00 – 10.30am	MORNING TEA													
12.30 – 1.00pm	LUNCH													
1.00 – 5.00pm	<p>Acupuncture & Dry Needling</p> <p>Confirming the science of the practice of acupuncture & dry needling.</p> <p><i>Presenters: Nadine Foster, Jenny Lucy, David Baxter, Panos Barlas</i></p> <p>Room: P 6</p>	<p>Business</p> <p>Resilience – your business health check.</p> <p><i>Presenters: Antony Hirst, Annette Tonkin, David Halvorsen, Nicholas Schuster, Mark Opar, David Brentnall, Tony Ganter, Ibrahim Samaan</i></p> <p>Room: P 9</p>	<p>Emergency Department</p> <p>Emergency department physiotherapy trauma study day.</p> <p><i>Presenters:</i></p> <p>Room: P 7</p>	<p>Disability</p> <p>HALF DAY PM</p> <p>The role of a physiotherapist in the assessment for (wheelchair) seating.</p> <p><i>Presenter: Bas Jansen</i></p> <p>Room: P 8</p>	<p>Gerontology</p> <p>HALF DAY PM</p> <p>Lighting the way forwards in gerontology physiotherapy research.</p> <p><i>Presenters: Anne-Marie Hill, Sze-Ee Soh</i></p> <p>Room: P 1</p>	<p>Cardiorespiratory</p> <p>HALF DAY PM</p> <p>Make it happen! How to implement cardiorespiratory evidence into routine practice.</p> <p><i>Presenters: Narelle Cox, Ianthe Boden</i></p> <p>Room: P 3 & 4</p>	<p>Occupational Health</p> <p>HALF DAY PM</p> <p>Empowering workers to reduce the risk and impact of musculoskeletal disorders.</p> <p><i>Presenters: Pam Garton, Martin Mackey</i></p> <p>Room: P 2</p>	<p>Pain/Mental Health</p> <p>HALF DAY PM</p> <p>Trauma informed physiotherapy workshop.</p> <p><i>Presenters: Michele Sterling, Melanie Block, Des O'Shaughnessy</i></p> <p>Room: P 5</p>	<p>Women's, Men's & Pelvic Health</p> <p>HALF DAY PM</p> <p>Biopsychosocial influences on pain and a musculo-skeletal screening assessment for pelvic pain.</p> <p><i>Presenters: Jane Chalmers, Andrea Mosler</i></p> <p>Room: M 1 & 2</p>	<p>Cancer, Palliative Care & Lymphoedema</p> <p>HALF DAY PM</p> <p>Functional anatomy of the upper torso, breast, axilla and shoulder complex.</p> <p><i>Presenter: Deirdre McGhee</i></p> <p>Room: P 11</p>	<p>Sports & Exercise/ Musculoskeletal</p> <p>HALF DAY PM</p> <p>Managing pain in active individuals.</p> <p><i>Presenters: JP Caneiro, Samantha Bunzli, Christian Barton</i></p> <p>Room: P 10</p>	<p>Paediatric</p> <p>OFFSITE</p> <p>Sports-focussed intervention and enabling sports participation for children and youth with disabilities – from entry-point to elite competition: a practical workshop for physiotherapists.</p> <p><i>Presenters: Georgina Clutterbuck, Sarah Reedman, Kerry West, Sean Tweedy</i></p>	<p>Neurology</p> <p>HALF DAY (3 – 7PM) OFFSITE</p> <p>Seated mobility for those with lower limb paralysis.</p> <p><i>Presenters: Lisa Harvey, Emilie Gollan</i></p>	<p>Aquatic</p> <p>HALF DAY (1.30 – 6.30PM) OFFSITE</p> <p>Practical management ideas for the neurological client in the aquatic environment.</p> <p><i>Presenter: Judy Larsen</i></p>
2.30 – 3.00pm	AFTERNOON TEA													

THURSDAY 31 MARCH 2022

7.30am	REGISTRATION
9.00 – 10.30am	<p>OPENING PLENARY</p> <p>Welcome To Country Presidents Welcome and Conference Opening Fit for the future – thriving, not just surviving, in a disrupted world. <i>Keynote speaker: Gihan Perera</i> Room: Great Hall 1 & 2</p>

MORNING TEA

Animal	Aquatic	Cancer, Palliative Care & Lymphoedema	Cardiorespiratory	Educators	Gerontology	Neurology A	Occupational Health	Orthopaedic	Paediatric	Pain	Women's, Men's & Pelvic Health	International Keynote
<p>Theme: Food for thought in animal rehabilitation</p> <p>11.05 – 11.40AM Does this hurt? The use of novel technology to assess pain in animal patients. <i>Invited speaker: Sarah Cruickshank</i></p> <p>11.40 – 11.45AM Application of human tendon rehabilitation principles to an equine superficial digital flexor tendon injury. <i>Speaker: Lynne Harrison</i></p> <p>11.45 – 11.50AM Insidious onset lameness and musculoskeletal pain in horses – food for thought. <i>Speaker: Lynne Harrison</i></p> <p>Room: P 5</p>	<p>Theme: Risk management</p> <p>Revisiting screening and risk management in two very challenging areas of aquatic physiotherapy practice: seizures and incontinence. <i>Invited speaker: Judy Larsen</i></p> <p>Room: P 6</p>	<p>Theme: Exercise & cancer care</p> <p>11.05 – 11.35AM Maximising physical activity in cancer survivors: what can we do as physiotherapists to improve patient outcomes? <i>Invited speaker: Lou James</i></p> <p>11.35 – 11.50AM Feasibility of early-commencing group-based exercise in allogeneic bone marrow transplantation: the BOOST study. <i>Speaker: Shaza Abo</i></p> <p>Room: P 8</p>	<p>Theme: Pulmonary rehabilitation</p> <p>11.05 – 11.10AM Opening and welcome from the cardiorespiratory scientific program chair.</p> <p>11.10 – 11.50AM Pulmonary rehabilitation – teaching an old dog new tricks. <i>National keynote speaker: Narelle Cox</i></p> <p>Room: Great Hall 3</p>	<p>Theme: Student learning: from classroom to clinic</p> <p>11.05 – 11.10AM Factors influencing individual's decision-making about studying for physiotherapy. <i>Speaker: Courtney Clark</i></p> <p>11.10 – 11.25AM Self-assessment accuracy in physiotherapy students: do students and examiners agree on practical skills examination performance? <i>Speaker: Emily Hopper</i></p> <p>11.25 – 11.30AM Forming and shaping of professional identity within pre-registration physiotherapy curricular: a scoping review. <i>Speaker: Laura Rappazzo</i></p> <p>11.30 – 11.35AM Relationship between communication competency and clinical fieldwork performance in a physiotherapy, undergraduate program: a retrospective observational cohort study. <i>Speaker: Baldwin Kwan</i></p> <p>11.35 – 11.40AM Experience and perceptions of final year physiotherapy students on the use of interactive technologies in clinical practice. <i>Speaker: Jill Garner</i></p> <p>11.40 – 11.45AM Stress, burnout, and coping strategies in pre-registration physiotherapy students: a systematic review and meta-synthesis. <i>Speaker: Georgia Finn</i></p> <p>Room: P 10</p>	<p>Theme: Aged and transitional care</p> <p>11.05 – 11.20AM Designing and evaluating falls prevention education with residents and staff in aged care homes. <i>Speaker: Jacqueline Francis-Coad</i></p> <p>11.20 – 11.35AM Scope of physiotherapy in Australian residential aged care. <i>Speaker: Lindsey Brett</i></p> <p>11.35 – 11.50AM Physiotherapists' perceived barriers and facilitators to services in Australian residential aged care. <i>Speaker: Lindsey Brett</i></p> <p>Room: P 1</p>	<p>Theme: Mobility in neurological physiotherapy</p> <p>11.05 – 11.20AM The relationship between affected leg strength and walking speed after stroke varies according to level of disability: a systematic review. <i>Speaker: Simone Dorsch</i></p> <p>11.20 – 11.35AM The safety and feasibility of home-based ballistic strength training for people with neurological conditions. <i>Speaker: Gavin Williams</i></p> <p>11.35 – 11.50AM Somato-sensory and visual impairments and the associations with walking and movement limitations in people with Multiple Sclerosis (MS). <i>Speaker: Katrina Williams</i></p> <p>Room: P 9</p> <p>Neurology B Theme: Upper limb therapy & brain injury</p> <p>11.05 – 11.20AM Quantifying the nature and extent of upper limb associated reactions during walking in people with acquired brain injury. <i>Speaker: Michelle Kahn</i></p> <p>11.20 – 11.35AM Exploration into potential contributing factors to upper limb associated reactions during walking in people with acquired brain injury. <i>Speaker: Michelle Kahn</i></p> <p>11.35 – 11.40AM A physiotherapist supervised walking program with telephone coaching to increase physical activity following acquired brain injury. <i>Speaker: Caitlyn Payne</i></p> <p>11.40 – 11.45AM Physical exercise for people with mild traumatic brain injury: a systematic review and meta-analysis. <i>Speaker: Sally Vuu</i></p> <p>11.45 – 11.50AM How do biomechanics of lateral weight shift during walking change after complex brain injury? <i>Speaker: Simon Mills</i></p> <p>Room: P 11</p>	<p>Theme: Psycho-social</p> <p>Biopsychosocial approach in clinical practice. <i>Invited speaker: Pam Garton</i></p> <p>Room: P 3 & 4</p>	<p>Theme: Non-elective orthopaedics</p> <p>11.05 – 11.10AM Could magnetic resonance spectroscopy analysis of multifidus intra-myo-cellular lipid fatty infiltration be a proxy for arthrogenic muscle inhibition induced IBP? <i>Speaker: Charles Gabel</i></p> <p>11.10 – 11.15AM Where are they now? Health-related outcomes five-years following traumatic amputation. <i>Speaker: Kaitlyn Black</i></p> <p>11.15 – 11.30AM Targeted exercise in physiotherapy practice reduces risk of osteoporotic fracture. <i>Speaker: Belinda Beck</i></p> <p>11.30 – 11.45AM Do levels of sedentary behaviour and physical activity differ according to weight-bearing status after lower limb fracture? <i>Speaker: Christina Ekegren</i></p> <p>Room: P 2</p>	<p>Theme: Neonates</p> <p>11.05 – 11.35AM Earlier biomarkers of neurodevelopmental outcomes in very preterm born infants: the PPREMO, PREBO and PREBO-6 cohort studies <i>National keynote speaker: Joanne George</i></p> <p>11.35 – 11.50AM Preterm infants, physiotherapy and participation: pragmatic lessons from a feasibility study. <i>Speaker: Chelsea Mobbs</i></p> <p>Room: M 3</p>	<p>Theme: Patient response</p> <p>Identifying patient characteristics associated with response to management of painful musculoskeletal disorders. <i>Invited speaker: Shaun O'Leary</i></p> <p>Room: M1 & 2</p>	<p>Theme: The stiff pelvic floor</p> <p>Tight, toned, and unknown. <i>National keynote speaker: Melissa Davidson</i></p> <p>Room: Great Hall 4</p>	<p>Theme: Healthcare</p> <p>Evidence-based and ethically-sustainable healthcare. <i>International keynote speaker: Teppo Järvinen</i></p> <p>Room: Great Hall 1 & 2</p>

Concurrent Session 1

<p style="text-align: center;">Concurrent Session 2</p> <p style="text-align: center;">11.55am – 12.40pm</p>	<p>Acupuncture & Dry Needling Theme: The science of the practice of acupuncture & dry needling</p> <p>11.55AM – 12.20PM Advancing the role of physiotherapists in musculo-skeletal primary healthcare. <i>National keynote speaker: Nadine Foster</i></p> <p>12.20 – 12.40PM Motor point needling. <i>Speaker: Nathan Stella</i></p> <p>Room: P 7</p>	<p>Animal Theme: Assessment and outcomes in animal physiotherapy</p> <p>11.55AM – 12.10PM Early intensive physiotherapy increases limb use and improves functional outcomes in dogs following tibial plateau levelling osteotomy (TPLO). <i>Speaker: Katrinka Geelen</i></p> <p>12.10 – 12.40PM Assessment and clinical reasoning in equine temporomandibular dysfunction. <i>Speaker: Lesley Goff</i></p> <p>Room: P 5</p>	<p>Aquatic / Gerontology Theme: Exercise for older adults</p> <p>11.55AM – 12.25PM Aquatic exercise training in older adults: evidence and considerations. <i>National keynote speaker: Anna Scheer</i></p> <p>12.25 – 12.40PM Physical activity interventions for older adults: a scoping review. <i>Speaker: Juliana Oliveria</i></p> <p>Room: P 6</p>	<p>Cardiorespiratory A Theme: Clinical practice in ICU for adults and paediatrics</p> <p>11.55AM – 12.10PM Inspiratory muscle training in intensive care unit patients: an international survey of physiotherapist practice. <i>Speaker: Ellie Hearn</i></p> <p>12.10 – 12.25PM Correlation of objectively measured function to patient-reported outcome measures in critical care survivors (PREDICTABLE). <i>Speaker: Michelle Paton</i></p> <p>12.25 – 12.30PM Physiotherapy-assisted weaning in mechanically ventilated patient (PHAST Wear). <i>Speaker: Lauren O'Connor</i></p> <p>12.30 – 12.35PM Audit of antibiotic stewardship in ventilator associated pneumonia within a neonatal intensive care unit. <i>Speaker: Sihle Bhebhe</i></p> <p>12.35 – 12.40PM No tool used to measure chest physiotherapy effects in mechanically ventilated children is superior to another: a systematic review. <i>Speaker: Bronagh McAlinden</i></p> <p>Room: P 9</p>	<p>Cardiorespiratory B Theme: Respiratory medicine – service and treatment in focus</p> <p>11.55AM – 12.10PM Impact of an allied health assistant on physiotherapy practice in an acute respiratory service: a pragmatic pre-post design study. <i>Speaker: Kathleen Hall</i></p> <p>12.10 – 12.25PM "One size does not fit all". Physiotherapist perceptions of airway clearance techniques in bronchiectasis. <i>Speaker: Lisa Franks</i></p> <p>12.25 – 12.40PM "It's keeping me alive!": patient perceptions of airway clearance techniques in bronchiectasis. <i>Speaker: Lisa Franks</i></p> <p>Room: P 11</p>	<p>Disability Symposium Theme: Physical activity and disability: why, what and how?</p> <p>11.55AM – 12.10PM Comparisons of physical activity participation by adults with and without a disability: an Australian cross-sectional survey. <i>Speaker: Jenni Cole</i></p> <p>12.10 – 12.25PM Identifying the evidence-base for sport and physical recreation for adults with physical and intellectual disabilities: a systematic review. <i>Speaker: Leanne Hassett</i></p> <p>12.25 – 12.40PM Feasibility of scaling-up a community-based physical activity program for young people with disability. <i>Speaker: Nora Shields</i></p> <p>Room: P 2</p>	<p>Educators Theme: Simulation</p> <p>11.55AM – 12.10PM Ready student one: simulation-based education, virtual reality, and the perception of stress. <i>Speaker: Elisa Canetti</i></p> <p>12.10 – 12.15PM Does a pre-clinical simulated placement effect physiotherapy students' stress or performance? <i>Speaker: Julie Gauchwin</i></p> <p>12.15 – 12.30PM MASK-ED™ simulation does not improve student performance during work integrated learning compared with usual role play: a cluster randomised trial. <i>Speaker: Tayne Ryall</i></p> <p>12.30 – 12.40PM The influence of paediatric simulation-based education on physiotherapy students' clinical performance during professional practice placement – an observational study. <i>Speaker: Edward Chia</i></p> <p>Room: P 10</p>	<p>Gerontology Theme: Falls</p> <p>11.55AM – 12.15PM What's hot and what's not? How can we translate fall prevention evidence into practice? <i>Invited speaker: Anne-Marie Hill</i></p> <p>12.15 – 12.30PM Evidence on exercise and falls prevention for people aged 60+ years: systematic review to inform the WHO physical activity guidelines. <i>Speaker: Wing Kwok</i></p> <p>12.30 – 12.40PM Panel discussion. <i>Speakers: Cathie Sherrington, Anne-Marie Hill</i></p> <p>Room: P 1</p>	<p>Mental Health Theme: Genes and behaviours</p> <p>11.55AM – 12.10PM Genetic risk for chronic pain is associated with lower anti-depressant effectiveness: support for a co-morbid depression and pain genetic subtype. <i>Speaker: Trung Ngo</i></p> <p>12.10 – 12.40PM Supporting clients with Anorexia Nervosa – the physiotherapist's role. <i>Invited speaker: Felicity De Blic</i></p> <p>Room: P 8</p>	<p>Musculoskeletal Theme: Knee</p> <p>HERknee: Can physiotherapists prevent the burden of knee OA for women? <i>National keynote speaker: Kay Crossley</i></p> <p>Room: Great Hall 3</p>	<p>Neurology Theme: Cerebral palsy</p> <p>Maximising lifespan mobility in adults ageing with cerebral palsy. <i>Invited speaker: Prue Morgan</i></p> <p>Room: M 3</p>	<p>Occupational Health Theme: Workplace psychological health</p> <p>Psychological health and safety in the workplace. <i>Invited speaker: Nicole Hughes</i></p> <p>Room: P 3 & 4</p>	<p>Pain Theme: Health beliefs</p> <p>"Broken bodies". How can we shift what people think and do about musculoskeletal pain? <i>Invited speaker: Samantha Bunzli</i></p> <p>Room: M 1 & 2</p>	<p>Women's, Men's & Pelvic Health Theme: Birth trauma</p> <p>11.55AM – 12.15PM Birth trauma from a urogynaecology perspective. <i>Invited speaker: Vivien Wong</i></p> <p>12.15 – 12.40PM Anorectal function post 3rd/4th degree tear. <i>Invited speaker: Chris Gillespie</i></p> <p>Room: Great Hall 4</p>	<p>International Keynote Theme: Return to sport</p> <p>Four return to sport challenges for athletes and clinicians (and tips for working together to achieve return to sport success) <i>International keynote speaker: Clare Ardern</i></p> <p>Room: Great Hall 1 & 2</p>
<p>12.40 – 1.40pm</p>	LUNCH														

<p style="text-align: center;">Concurrent Session 3</p> <p style="text-align: center;">1.40 – 2.25pm</p>	<p>Acupuncture & Dry Needling Theme: The science of the practice of acupuncture & dry needling</p> <p>1.40 – 2.10PM Sex and gender analysis of acupuncture research to treat musculo-skeletal conditions. <i>Invited speaker: Caroline Smith</i></p> <p>2.10 – 2.25PM Efficacy of various forms of acupuncture for the management of urinary incontinence in women: a systematic review and meta-analysis. <i>Speaker: Priya Kannan</i></p> <p style="text-align: right;">Room: P 7</p>	<p>Animal Theme: Horse and rider</p> <p>1.40 – 2.10PM Facilitating independent pelvic movement to improved seat, weight aids and symmetry for horse riders. <i>Speaker: Stephanie Batterham</i></p> <p>2.10 – 2.25PM Effect of caudal traction on mechanical nociceptive thresholds of epaxial and pelvic musculature on horses with signs of back pain. <i>Speaker: Kathryn Long</i></p> <p style="text-align: right;">Room: P 5</p>	<p>Educators Theme: Clinical placements</p> <p>1.40 – 1.55PM Rising to the Challenge of COVID-19: pivoting to online project-based student placements in contemporary professional settings. <i>Speaker: Rebecca Vaughan</i></p> <p>1.55 – 2.00PM Evaluation of the early impact of COVID-19 on physiotherapy clinical placement learning models and client case-mix. <i>Speaker: Andrea Hams</i></p> <p>2.00 – 2.05PM Telehealth delivery in a physiotherapy student clinic: feasibility for clients, students and clinical educators during COVID-19. <i>Speaker: Maureen McEvoy</i></p> <p>2.05 – 2.20PM Weighing up the benefits and challenges of hosting physiotherapy student placements in private practice; a qualitative exploration. <i>Speaker: Roma Forbes</i></p> <p>2.20 – 2.25PM Clinical Placement Quality Survey– Student (CPQS-S): validity and reliability of a novel inter-professional tool to evaluate allied health placement quality. <i>Speaker: Andrea Hams</i></p> <p style="text-align: right;">Room: P 10</p>	<p>Mental Health Theme: Holistic care: enhancing patient and practitioner wellbeing</p> <p>1.40 – 2.15PM Sense of Safety: a whole person approach to distress relevant to the physiotherapist. <i>National keynote speaker: Johanna Lynch</i></p> <p>2.15 – 2.25PM Stress and burnout in qualified physiotherapists and their coping strategies: a mixed methods systematic review. <i>Speaker: Madison Sumsion</i></p> <p style="text-align: right;">Room: P 8</p>	<p>Musculoskeletal A Theme: Equity and diversity in physiotherapy</p> <p>1.40 – 2.10PM How can we reduce social inequities? Three practical steps to make action easier for all physiotherapists. <i>Invited speaker: Jenny Setchell</i></p> <p>2.10 – 2.25PM Does the biopsychosocial model speak to health equity? Results from a critical review. <i>Speaker: Karime Mescouto</i></p> <p style="text-align: right;">Room: Great Hall 3</p> <hr/> <p>Musculoskeletal B Theme: Osteoarthritis management</p> <p>1.40 – 1.55PM “It can be frustrating... Osteoarthritis management is complex, hampered by inefficient pathways and healthcare systems. <i>Speaker: Alison Gibbs</i></p> <p>1.55 – 2.10PM Why don't people with osteoarthritis and obesity change their physical activity? <i>Speaker: Natalie Pavlovic</i></p> <p>2.10 – 2.15PM Multi-directional hip strength and dynamic balance in people with unilateral knee osteoarthritis compared to healthy controls: a cross-sectional study. <i>Speaker: Andrew Hislop</i></p> <p>2.15 – 2.20PM Individuals perspectives on their lived experience with ankle osteoarthritis: a qualitative study. <i>Speaker: Sultan Alanazi</i></p> <p>2.20 – 2.25PM How do people with knee osteoarthritis react to a video delivering empowering education about their condition and its management? <i>Speaker: Thorlene Egerton</i></p> <p style="text-align: right;">Room: M 1 & 2</p>	<p>Neurology Theme: Stroke</p> <p>Optimising upper limb motor therapy after stroke to enhance recovery. <i>Invited speaker: Kate Hayward</i></p> <p style="text-align: right;">Room: M 3</p>	<p>Occupational Health Theme: Work focussed Care</p> <p>1.40 – 1.55PM Interventions to promote work-focused care by healthcare providers for individuals with musculoskeletal conditions: a scoping review. <i>Speaker: Yanfei Xie</i></p> <p>1.55 – 2.10PM The current utilisation of the “Clinical framework for delivery of health services” from the perspectives of Insurers and regulating bodies. <i>Speaker: Bhavya Adalja</i></p> <p>2.10 – 2.25PM Designing interventions to maintain work ability. <i>Speaker: Paul Rothmore</i></p> <p style="text-align: right;">Room: P 6</p>	<p>Orthopaedic Theme: Post orthopaedic surgery care</p> <p>1.40 – 1.55PM Redesigning orthopaedic post-operative protocols to optimise patient care: an evaluation study. <i>Speaker: Emily Cross</i></p> <p>1.55 – 2.10PM ‘In the dark’ about physical activity – patient perceptions of physical activity after total knee joint replacement: a qualitative study. <i>Speaker: Lyndon Hawke</i></p> <p>2.10 – 2.25PM Which patient factors best predict discharge destination after primary total knee arthroplasty? The ARISE trial. <i>Speaker: Larissa Sattler</i></p> <p style="text-align: right;">Room: P 2</p>	<p>Paediatric A Theme: Optimal therapy</p> <p>1.40 – 2.10PM How to improve goal setting and motivation in therapy through the use of the F-words Life Wheel. <i>Speaker: Kelly Reynolds</i></p> <p>2.10 – 2.25PM Preferences of key stakeholders regarding community-based recreational activities for preschool-aged children born preterm or with developmental delay: mixed methods study. <i>Speaker: Free Coulston</i></p> <p style="text-align: right;">Room: P 1</p> <hr/> <p>Paediatric B Theme: Neonatal Assessment</p> <p>1.40 – 1.55PM Diagnostic accuracy of Hammersmith Neonatal Neurological Examination to predict motor outcomes at 12 months corrected age in very preterm infants. <i>Speaker: Grace Howard</i></p> <p>1.55 – 2.10PM Hammersmith Neonatal Neurological Examination at 32 and 40 weeks postmenstrual age predicts cognitive outcomes at 12 months corrected age. <i>Speaker: Isabel Huf</i></p> <p>2.10 – 2.25PM Developmental outcomes of extremely preterm infants in the first year: a comparison of infants born at 23<25 versus 25<28 weeks. <i>Speaker: Jade Graham</i></p> <p style="text-align: right;">Room: P 9</p>	<p>Sports & Exercise A Symposium Theme: Hip-related pain: where are we now?</p> <p>1.40 – 1.55PM Consensus recommendations on the classification, definition and diagnostic criteria of hip-related pain in young and middle-aged active adults. <i>Speaker: Josh Heerey</i></p> <p>1.55 – 2.10PM Standardised measurement of physical capacity in young and middle-aged active adults with hip-related pain. <i>Speaker: Andrea Mosler</i></p> <p>2.10 – 2.25PM Physiotherapist-led treatment for young to middle-aged active adults with hip-related pain. <i>Speaker: Joanne Kemp</i></p> <p style="text-align: right;">Room: P 3 & 4</p> <hr/> <p>Sports & Exercise B Theme: Quick practice tips</p> <p>1.40 – 1.45PM Lower limb biomechanics during running in football players with and without hip and groin pain. <i>Speaker: Mark Scholes</i></p> <p>1.46 – 1.51PM Injury profiles in female Australian football players. <i>Speaker: Jessica Farley</i></p> <p>1.52 – 1.57PM Feasibility, credibility and acceptability of foot exercise plus education versus wait-and-see for a randomised clinical trial for plantar heel pain. <i>Speaker: Melinda Franetovich Smith</i></p> <p>1.58 – 2.03PM Psychology in motion: assisting patients with anterior cruciate ligament injuries to thrive. A narrative review. <i>Speaker: Sue Keays</i></p> <p>2.04 – 2.09PM The intra-rater and inter-rater reliability of hand-held dynamometry for shoulder strength assessment in circus arts students. <i>Speaker: Charlotte Ganderton</i></p> <p>2.10 – 2.15PM Effects of biomechanical tape on pain and function in individuals with lateral elbow tendinopathy: A randomised crossover trial. <i>Speaker: Caitlin Hill</i></p> <p>2.16 – 2.21PM Can physical activity measurement alone improve objectively-measured physical activity in primary care? A systematic review and meta-analysis. <i>Speaker: Nicole Freene</i></p> <p style="text-align: right;">Room: P 11</p>	<p>Women's, Men's & Pelvic Health Theme: Birth trauma</p> <p>1.40 – 2.00PM Avulsion. <i>National keynote speaker: Melissa Davidson</i></p> <p>2.00 – 2.20PM ACSQHC clinical care standard on 3rd and 4th degree perineal tears. <i>Invited speaker: Natalie McConochie</i></p> <p>2.20 – 2.25PM Co-designing a physiotherapy led intervention to improve the mental health of postnatal women. <i>Speaker: Sheridan Guyatt</i></p> <p style="text-align: right;">Room: Great Hall 4</p>	<p>International Keynote Theme: Frailty</p> <p>Frailty and its relevance to rehabilitation for people with long term conditions. <i>International keynote speaker: Matthew Maddocks</i></p> <p style="text-align: right;">Room: Great Hall 1 & 2</p>

<p>Concurrent Session 4</p> <p>2.30 – 3.15pm</p>	<p>Cancer, Palliative Care & Lymphoedema Theme: Physiotherapy & breast cancer</p> <p>Physical rehabilitation after breast cancer surgery: the role of physiotherapy. <i>National keynote speaker: Deirdre McGhee</i></p> <p>Room: P 8</p>	<p>Cardiorespiratory Symposium Theme: Home-based or remote exercise testing in pulmonary or cardiac rehabilitation</p> <p>2.30 – 2.45PM Home-based or remote exercise testing in chronic respiratory disease during the COVID-19 pandemic and beyond: a rapid review. <i>Speaker: Anne Holland</i></p> <p>2.45 – 3.00PM Application of the modified incremental step test for pulmonary rehabilitation. <i>Speaker: Angela Burge</i></p> <p>3.00 – 3.15PM Home-based and remote functional exercise testing in heart disease, during the COVID-19 pandemic and beyond: a systematic review. <i>Speaker: Julie Adsett</i></p> <p>Room: M 1 & 2</p>	<p>Disability Theme: Community participation</p> <p>2.30 – 2.45PM Community gym participation among young adults with cerebral palsy: a qualitative study. <i>Speaker: Georgia McKenzie</i></p> <p>2.45 – 3.00PM Social and community participation following traumatic lower limb amputation: an exploratory qualitative study. <i>Speaker: Jemma Keeves</i></p> <p>3.00 – 3.15PM Measuring participation in sports and physical recreation for people with disabilities: a systematic review. <i>Speaker: Georgina Clutterbuck</i></p> <p>Room: P 5</p>	<p>Educators Theme: Learners in diverse settings</p> <p>2.30-2.35PM Mapping physiotherapy student clinical exposure and learning opportunities in a novel specialised vestibular placement in an Australian public hospital. <i>Speaker: Jacinta Foster</i></p> <p>2.35 – 2.40PM A student led physiotherapy service is safe and effective for improving client outcomes in community-dwelling adults with neurological diagnoses. <i>Speaker: Taryn Jones</i></p> <p>2.40 – 2.45PM Tapping into the attitudes and perceptions of dance and physiotherapy educators on dance workshops for physiotherapy students. <i>Speaker: Natalie Fini</i></p> <p>2.45 – 2.50PM Creating supportive clinical learning environments: a feasibility study to enhance collaboration between physiotherapy students and educators using the 'Everything DiSC' <i>Speaker: Chanelle Louwen</i></p> <p>2.55 – 3.00PM Readiness for practice of new graduate physiotherapists: a systematic review. <i>Speaker: Tanya Thompson</i></p> <p>3.00 – 3.05PM Physiotherapy business work integrated learning program: addressing the gap in work readiness. <i>Speaker: Charlotte Marshall</i></p> <p>3.05 – 3.10PM Examining user perspective of an online learning resource for physiotherapists: a mixed methods study of the TRAIN program. <i>Speaker: Katharine Scrivener</i></p> <p>Room: P 10</p>	<p>Gerontology Theme: What next? Discharge from hospital</p> <p>2.30 – 2.45PM Factors affecting engagement of older adults in exercise after hospitalisation. <i>Speaker: Chiara Naseri</i></p> <p>2.45 – 3.00PM Factors influencing care and support for older adults with traumatic injury: a qualitative study. <i>Speaker: Christina Ekegren</i></p> <p>3.00 – 3.05PM A retrospective view of patient perceptions of readiness for hospital discharge: were they really ready? <i>Speaker: Sarah Mattin</i></p> <p>3.05 – 3.10PM Novice and experienced physiotherapists; what are the differences in clinical reasoning for discharge to home for the elderly? <i>Speaker: Sarah Mattin</i></p> <p>3.10 – 3.15PM Meeting community ambulation criteria and ambulatory confidence on discharge from inpatient rehabilitation are positively associated with outdoor community. <i>Speaker: Leslie Robins</i></p> <p>Room: P 9</p>	<p>Musculoskeletal A Theme: Patello-femoral pain and research design</p> <p>2.30 – 3.00PM Exercise is a key recommendation for patellofemoral pain, but is it the only option: findings from a multi-site randomised clinical trial. <i>Invited speaker: Bill Vicenzino</i></p> <p>3.00 – 3.15PM What makes a great randomised controlled trial in physiotherapy: a meta-epidemiological study. <i>Speaker: Anne Moseley</i></p> <p>Room: Great Hall 3</p>	<p>Musculoskeletal B Theme: Hip region pain</p> <p>2.30 – 2.45PM Is greater trochanteric pain syndrome a risk factor for developing hip osteoarthritis? An 11-year follow-up study. <i>Speaker: Angie Fearon</i></p> <p>2.45 – 3.00PM Morphological and mechanical properties of the iliotibial band: a systematic review. <i>Speaker: Manuela Besomi</i></p> <p>Room: P 3 & 4</p>	<p>Neurology A Theme: Upper limb therapy & stroke</p> <p>2.30 – 2.45PM A systematic review exploring the elements of upper limb therapy that drive clinical changes post-stroke. <i>Speaker: Matthew Wingfield</i></p> <p>2.45 – 3.00PM Factors influencing adherence to intensive upper limb exercise programs: stroke survivors' perspectives. <i>Speaker: Tamina Levy</i></p> <p>3.00 – 3.15PM Implementing modified constraint-induced movement therapy in an early-supported discharge rehabilitation service in WA: a qualitative study investigating acceptability. <i>Speaker: Ashan Weerakkody</i></p> <p>Room: P 7</p>	<p>Neurology B Theme: Technology and physiotherapy</p> <p>2.30 – 3.00PM Artificial Intelligence: a theoretical and practical application crash course for physiotherapists. <i>Speaker: Ryan Gallagher</i></p> <p>3.00 – 3.15PM Therapy using a lower limb robotic exoskeleton can improve therapeutic outcomes, and is acceptable to patients with neurological conditions. <i>Speaker: Nicola Postol</i></p> <p>Room: P 11</p>	<p>Occupational Health Theme: Injury prevention</p> <p>2.30 – 2.45PM Usage of sit-stand workstations: benefits and barriers from decision makers' perspective in Australia. <i>Speaker: Haroun Zerguine</i></p> <p>2.45 – 3.00PM Why are we still doing 'how to lift' training in workplaces? <i>Speaker: Sue Rogerson</i></p> <p>3.00 – 3.15PM Preventing and managing professional musicians' musculoskeletal conditions: a systematic review. <i>Speaker: Jessica Stanhope</i></p> <p>Room: P 6</p>	<p>Orthopaedic Theme: Arthroplasty</p> <p>2.30 – 2.45PM Assessing the use of appropriateness tools in knee arthroplasty: an Australian perspective. <i>Speaker: Sascha Karunaratne</i></p> <p>2.45 – 2.50PM Can health professionals identify the importance of their total knee arthroplasty patients' goals? Formulating a hierarchy of patient objectives. <i>Speaker: Sascha Karunaratne</i></p> <p>2.50 – 3.05PM Preoperative kinematics influences postoperative kinematics. A clinical trial of total knee arthroplasty. <i>Speaker: Pouya Saeedian</i></p> <p>3.05 – 3.10PM What are the sociodemographic and clinical characteristics of Aboriginal and Torres Strait Islander people undergoing total joint replacement? <i>Speaker: Penny O'Brien</i></p> <p>3.10 – 3.15PM Hip muscle strength changes following primary hip arthroplasty: systematic review and meta-analysis. <i>Spaker: Lakshmi Varma</i></p> <p>Room: P 2</p>	<p>Paediatric Theme: Participation</p> <p>2.30 – 3.00PM Handle with care: reflections on the role of evidence-based assessments in our paediatric practice and profession. <i>Invited speaker: Bridget O'Connor</i></p> <p>3.00 – 3.15PM School readiness assessments for pre-school aged children with or without neurodevelopmental disability: a systematic review. <i>Speaker: Pooja Vijayakumar</i></p> <p>Room: P 1</p>	<p>Pain Theme: Back Pain</p> <p>Psychologically informed management of low back pain. <i>National keynote speaker: James McAuley</i></p> <p>Room: M 3</p>	<p>Sports & Exercise Theme: Athlete health and performance</p> <p>2.30 – 2.45PM Collaborative intervention development with key stakeholders to enhance injury prevention program use in the real-world setting. <i>Speaker: Andrea Bruder</i></p> <p>2.45 – 3.15PM Building systems to optimise athlete health and performance. <i>National keynote speaker: Michael Drew</i></p> <p>Room: Great Hall 1 & 2</p>	<p>Women's, Men's & Pelvic Health Theme: Pelvic organ prolapse</p> <p>2.30 – 2.45PM Development of a competency framework for physiotherapy training in pessary management for women with prolapse: an e-Delphi study. <i>Speaker: Patricia Neumann</i></p> <p>2.45 – 2.55PM Impact of an educational intervention on pelvic organ prolapse symptoms for Nepali women: a randomised control trial. <i>Speaker: Delena Caagbay</i></p> <p>2.55 – 3.15PM Avulsion – How to Ax and manage, transferable into clinic. <i>Invited speaker: Natalie McConochie</i></p> <p>Room: Great Hall 4</p>
<p>3.15 – 3.45pm</p> <p>AFTERNOON TEA</p>															
<p>4.00 – 5.00pm</p> <p>PLENARY 2 Physiotherapy: the hands-on profession. <i>Keynote panel speakers: Phillip Hughes, Amy Papinniemi, Helen Seale</i> <i>Facilitator: Gwen Jull</i> Room: Great Hall 1 & 2</p>															
<p>5.15 – 7.15pm</p> <p>WELCOME RECEPTION EXHIBITION HALL</p>															

FRIDAY 1 APRIL 2022

6.30am	REGISTRATION												
Breakfast 7.00 – 8.15am	<p>Acupuncture & Dry Needling Highlights of the Dunedin Longitudinal Study – as related to physiotherapy. <i>Presenter: David Baxter</i> Room: P 7</p>	<p>Animal/Mental Health Therapeutic practice and alliance – the role of client, assistance dog and physiotherapist in anxiety/PTSD. <i>Presenters: Lyndon Blake, Richard Modderman</i> Room: P 5</p>	<p>Cancer, Palliative Care & Lymphoedema Implementing Cancer Rehabilitation – do we need to up our game? <i>Presenter: Lou James</i> Room: P 8</p>	<p>Cardiorespiratory Imaging informed clinical practice – an essential skill for the cardiorespiratory physiotherapist. <i>Presenters: Sarah Wright, Doa El-ansary</i> Room: P 3 & 4</p>	<p>Disability Growing up in Australia – my lived experience. Messages for therapists. <i>Presenters: Anitta Stallwood & George Kambouris</i> Room: P 6</p>	<p>Educators Survive, revive, thrive! Cultivating resilience and wellbeing for educators in a changing world. <i>Presenter: Lauren Cox</i> Room: P 10</p>	<p>Gerontology Bone health and vestibular dysfunction: emerging research and diagnostic technologies. <i>Presenter: Leia Barnes</i> Room: P 1</p>	<p>Neurology Technology and future of neurological physiotherapy. <i>Presenters: Lisa Harvey, Coralie English, Kate Hayward</i> Room: P 9</p>	<p>Occupational Health The challenges of work and the new norm. <i>Presenter: Remi Ayoko</i> Room: P 2</p>	<p>Paediatric What is participation-focused physiotherapy? <i>Presenter: Sarah Reedman</i> Room: P 11</p>	<p>Sports and Exercise Case-based exploration of sport, musculoskeletal and women’s health physiotherapy perspectives on athlete management. <i>Presenters: Alison Grimaldi, Lori Forner, Rod McLean</i> Room: M 3</p>	<p>Women’s, Men’s & Pelvic Health The pregnant pelvic floor – changes in force and stiffness. <i>Presenter: Melissa Davidson</i> Room: M 1 & 2</p>	
8.45 – 10.00am	<p>PLENARY 3 Physio pitchfest – the PRF supporting innovation <i>Keynote speaker: Nils Vesik</i> Room: Great Hall 1 & 2</p>												
10.00 – 10.30am	MORNING TEA												
Concurrent Session 5 10.35 – 11.20am	<p>Aquatic Theme: Cardiometabolic disease Aquatic exercise training for cardiometabolic disease. <i>National keynote speaker: Anna Scheer</i> Room: P 6</p>	<p>Cardiorespiratory Theme: Jill Nosworthy session for best paper 10.35 – 10.50AM Does mechanical threshold inspiratory muscle training promote recovery and improve outcomes in ventilator-dependent ICU patients? The IMPROVE randomised trial. <i>Speaker: Bernie Bissett</i> 10.50 – 11.05AM Supervised early resistance training versus aerobic-based rehabilitation on cognitive recovery following cardiac surgery (SEcReT): a pilot randomised controlled trial. <i>Speaker: Doa El-Ansary</i> 11.05 – 11.20AM The feasibility of an innovative GP-physiotherapist partnership to identify and manage Chronic Obstructive Pulmonary Disease: a pilot study. <i>Speaker: Lisa Pagano</i> Room: M 1 & 2</p>	<p>Disability Theme: From the client perspective 10.35 – 10.50AM Pity or pedestal – media portrayal of spinal cord injury (SCI) and impact on lived experiences. <i>Speaker: Leanne Rees</i> 10.50 – 10.55AM Patient perspectives on the benefits, barriers, and facilitators of beach accessibility for individuals with mobility limitations: a local pilot study. <i>Speaker: Sasha Job</i> 10.55 – 11.00AM Goal attainment and outcomes of physiotherapy participants funded by an individualised government package. <i>Speaker: Katherine Alava Bravo</i> 11.00 – 11.05AM Defining sports/physical recreation participation for children with disabilities: perspectives of health/sports professionals and people with lived experience of disability. <i>Speaker: Georgina Clutterbuck</i> Room: P 5</p>	<p>Educators Theme: Clinician as educator 10.35 – 10.50AM Inception of “Physiotherapy Education Program” – the innovative delivery of education for physiotherapists. <i>Speaker: Kirby Adams</i> 10.50 – 10.55AM A clinical supervision training program can improve the short-term effectiveness of clinical supervision of physiotherapists. <i>Speaker: David Snowdon</i> 10.55 – 11.00AM Educating the educator: implementation of a clinical educator development pathway. <i>Speaker: Kirby Adams</i> 11.00 – 11.15AM Barriers, enablers and patient design ideas for health literacy responsive hospital outpatient rehabilitation waiting areas: a framework analysis. <i>Speaker: Cassie McDonald</i> 11.15 – 11.20AM Effects of an online education program on physiotherapists’ confidence in weight management for people with osteoarthritis: randomised controlled trial. <i>Speaker: Kim Bennell</i> Room: P 10</p>	<p>Gerontology Theme: Inflamm-aging 10.35 – 11.05AM Inflamm-aging: an update on mechanisms and management. <i>Invited speaker: Emily Gordon</i> 11.05 – 11.20AM The association between hearing impairment and postural stability in older adults: a systematic review and meta-analysis. <i>Speaker: Jacinta Foster</i> Room: P 8</p>	<p>Musculoskeletal A Theme: Chronic pain 10.35 – 11.05AM Using brain-based biomarkers to predict and prevent chronic pain. <i>Invited speaker: Siobhan Schabrun</i> 11.05 – 11.20AM Stubborn tendon pain: why? <i>Invited speaker: Bill Vicenzino</i> Room: Great Hall 4</p> <p>Musculoskeletal B Symposium Theme: Musculoskeletal pain and sexual dysfunction 10.35 – 10.50AM The impact of chronic painful musculoskeletal conditions on sexual function. <i>Speaker: Ilana Ackerman</i> 10.50 – 11.05AM Addressing sexual dysfunction as part of holistic musculoskeletal pain care. <i>Speaker: Laura Worthington</i> 11.05 – 11.20AM Recommended management options and referral pathways for impaired sexual function in musculoskeletal care. <i>Speaker: Brooke Dobo</i> Room: P 9</p>	<p>Neurology A Theme: Telehealth Telehealth for neuro-rehabilitation – are we ready for wide-spread roll-out? <i>Invited speaker: Coralie English</i> Room: P 1</p> <p>Neurology B Theme: Parkinson’s and telehealth 10.35 – 11.05AM Telehealth, exercise, and Parkinson’s disease. Hints and tips when using telehealth to support home-based exercise for people with Parkinson’s disease. <i>Speaker: Allyson Flynn</i> 11.05 – 11.20AM Video self-modelling plus physical practice is feasible and acceptable for addressing freezing of gait in Parkinson’s disease. <i>Speaker: Lina Goh</i> Room: P 2</p>	<p>Occupational Health Theme: COVID-19 and work Learning to work from home: experience of employees and organisations during the COVID-19 lockdown. <i>National keynote speaker: Martin Mackey</i> Room: P 11</p>	<p>Paediatric Theme: Management of infants feet 10.35 – 11.05AM Children’s footwear, not just a fashion item. <i>Invited speaker: Cylie Williams</i> 11.05 – 11.20AM Idiopathic clubfeet follow four distinct trajectories during initial Ponseti management. <i>Speaker: Rachal Quinlan</i> Room: P 7</p>	<p>Pain Symposium Theme: From brains & genes to body image perception — Innovative methods in chronic pain research & intervention 10.35 – 10.50AM Pain in the brain & genes: genetic contribution to grey matter morphology differences in chronic pain. <i>Speaker: Scott Farrell</i> 10.50 – 11.05AM Objective monitoring of response to treatment for chronic pain using two-dimensional correlation spectroscopy. <i>Speaker: Julia Watson</i> 11.05 – 11.20AM Targeting body image perception: virtual reality in clinical pain research & treatment. <i>Speaker: Daniel Harvie</i> Room: P 3 & 4</p>	<p>Sports & Exercise Symposium Theme: The use of injury prevention programs in community netball 10.35 – 10.50AM Have community netball coaches adopted the Netball KNEE program? <i>Speaker: Lauren Davies</i> 10.50 – 11.05AM How is the Netball KNEE program implemented in community netball? <i>Speaker: Tess Saad</i> 11.05 – 11.20AM What is limiting the implementation of injury prevention programs in community netball? <i>Speaker: Michelle Smith</i> Room: M 3</p>	<p>Women’s, Men’s & Pelvic Health Theme: Pain Flare / inflammation and LBP / gender differences <i>Invited speaker: Paul Hodges</i> Room: Great Hall 3</p>	<p>International Keynote Theme: Translational research How do we translate research into practice in the provision of health care to ageing marginalised populations? <i>International keynote speaker: David Baxter</i> Room: Great Hall 1 & 2</p>

<p>Concurrent Session 6</p> <p>11.25am – 12.10pm</p>	<p>Acupuncture & Dry Needling Theme: The science of the practice of acupuncture & dry needling</p> <p>11.25 – 11.50AM Acupuncture in the time of Covid 19 and beyond: challenges, threats and opportunities. <i>Invited speaker: Panos Barlas</i></p> <p>11.50AM – 12.10PM Implement & optimise benefit from patient reported outcome measures (PROMS) of people with shoulder injuries, incorporating rapid assessment & dry needling. <i>Speaker: Jon Clerke</i></p> <p>Room: P 9</p>	<p>Animal Theme: ACL</p> <p>Optimising cranial cruciate ligament (CCL) injury outcomes: what can we learn from ACL research in humans? <i>National keynote speaker: Stephanie Filbay</i></p> <p>Room: P 5</p>	<p>Aquatic Theme: Aquatic physiotherapy for neurological conditions</p> <p>11.25 – 11.40AM Aquatic physiotherapy for an adult male with acquired brain injury: focus on function, fitness and mental health. A short case presentation. <i>Invited speaker: Judy Larsen</i></p> <p>11.40AM – 12.10PM A case report demonstrating the clinical value of aquatic physiotherapy versus land based therapy for Axonal Variant Guillian-Barré Syndrome. <i>Speaker: Natole Jasonides</i></p> <p>Room: P 6</p>	<p>Cardiorespiratory Theme: Jill Nosworthy session for best paper cont'd</p> <p>11.25 - 11.40AM Hypoxia on the first postoperative day is associated with higher risk of reintubation and death following abdominal surgery. <i>Speaker: Claire Hackett</i></p> <p>11.40 - 11.55AM Another emergency call in – what are prediction factors for episodes of acute secretion retention? <i>Speaker: Jennifer Paratz</i></p> <p>11.55AM - 12.10PM Effectiveness of a behavioural change intervention on sedentary behaviour, physical activity and clinical outcomes in people with chronic obstructive pulmonary disease. <i>Speaker: Sonia Cheng</i></p> <p>Room: M 1 & 2</p>	<p>Educators Theme: Best practice feedback</p> <p>11.25AM – 12PM Engaging learners in feedback: lessons from a tried and tested model. <i>Invited speaker: Christy Noble</i></p> <p>12.00 -12.10PM Q & A</p> <p>Room: P 10</p>	<p>Gerontology A Theme: Vestibular/falls</p> <p>11.25 – 11.55AM How therapists and exercisers can monitor balance exercise intensity – the Balance Intensity Scale in practice. <i>Speaker: Melanie Farlie</i></p> <p>11.55AM – 12.10PM Many older adults in subacute rehabilitation have vestibular and oculomotor dysfunction on clinical assessment but few report dizziness when moving. <i>Speaker: Ann Rahmann</i></p> <p>Room: P 1</p> <p>Gerontology B Theme: Promoting physical activity in inpatient hospital care</p> <p>11.25 – 11.40AM How to promote mobility in the acute hospital setting. <i>Speaker: Jo Nolan</i></p> <p>11.40 – 11.55AM Behaviour change interventions can increase physical activity in hospitalised patients: a systematic review and meta-regression. <i>Speaker: Nicolas Taylor</i></p> <p>11.55AM – 12.10PM The influence of disempowerment on the sedentary behaviour and physical activity of hospitalised older adults: a grounded theory study. <i>Speaker: Unyime Jasper</i></p> <p>Room: P 8</p>	<p>Musculoskeletal A Theme: Equity and diversity in physiotherapy</p> <p>11.25 – 11.37AM (Un)certainity and emotions in low back pain (LBP) care – insights from a qualitative investigation. <i>Speaker: Nathalia Costa</i></p> <p>11.37AM – 12.01PM Exploring LGBTQIA+ identities in physiotherapy practice. <i>Speaker: Megan Ross</i></p> <p>12:01 – 12:10PM Panel Q&A <i>Facilitated by Jenny Setchell with Karime Mescouto, Nathalia Costa and Megan Ross</i></p> <p>Room: M 3</p> <p>Musculoskeletal B Symposium Theme: From mechanisms to management: an evidence informed approach for lateral elbow tendinopathy</p> <p>11.25 – 11.40AM Time to task failure with low-load isometric contraction – a useful metric in individuals with lateral elbow tendinopathy. <i>Speaker: Brooke Coombes</i></p> <p>11.40 – 11.55AM The prognostic value of somatosensory, psychological and comorbid pain features in persistent lateral elbow tendinopathy: a 1-year prognostic study. <i>Speaker: Viana Vuvan</i></p> <p>11.55AM – 12.10PM Effects of prolotherapy injections and physiotherapy in improving sensory characteristics in people with chronic lateral elbow tendinopathy. <i>Speaker: Leanne Bisset</i></p> <p>Room: Great Hall 4</p>	<p>Neurology A Theme: Self efficacy and stroke</p> <p>11.25 – 11.55AM How to increase self-efficacy and self-management to improve physical activity levels in stroke survivors. <i>Speaker: Simone Dorsch</i></p> <p>11.55AM – 12.10PM Self-efficacy, pre-stroke identity and social networks: important influencers of post-stroke physical activity. <i>Speaker: Karl Espemberger</i></p> <p>Room: P 3 & 4</p> <p>Neurology B Theme: Neurological disorders</p> <p>11.25 – 11.40AM Physiotherapy assessment of people with neurological conditions in Australia: a national survey. <i>Speaker: Jill Gamer</i></p> <p>11.40 – 11.55AM People living in regional areas use less physical therapy services and have to travel further following transport-related major trauma. <i>Speaker: Jemma Keeves</i></p> <p>11.55AM – 12.00PM Diabetic neuropathy in hands: an endemic complication waiting to unfold. The DIANE project. <i>Speaker: Eva Sierra-Silvestre</i></p> <p>12.00 – 12.05PM Textured shoe insoles to improve balance and gait in adults with diabetic neuropathy: preliminary findings from a randomised controlled trial. <i>Speaker: Anna Hatton</i></p> <p>Room: P 2</p>	<p>Occupational Health Theme: Impacting work</p> <p>11.25 – 11.40AM The effect of working from home on neck pain and neck disability among Swiss office workers: short-term impact of COVID-19. <i>Speaker: Venerina Johnston</i></p> <p>11.40 – 11.55AM The impact of prior physical conditioning on initial tactical recruit training success: a systematic review. <i>Speaker: Alexander Howe</i></p> <p>11.55AM – 12.00PM Did manual handling practice of hospital-based physiotherapists alter due to COVID-19? <i>Speaker: Tracey Khan</i></p> <p>Room: P 11</p>	<p>Paediatric Theme: Orthopaedics</p> <p>11.25 – 11.55AM A guide for therapists working with infants and children with neonatal brachial plexus palsy. <i>Speaker: Alison Chivers</i></p> <p>11.55AM – 12.10PM A snapshot from the world-first paediatric anterior cruciate ligament Registry; what does it tell us about this challenging problem? <i>Speaker: Kylie Bradford</i></p> <p>Room: P 7</p>	<p>Sports & Exercise Theme: Hip and groin pain</p> <p>11.25 – 11.40AM Cam morphology is associated with early hip OA features in football players with and without hip and groin pain. <i>Speaker: Josh Heerey</i></p> <p>11.40 – 11.55AM Does femoroacetabular impingement syndrome affect self-reported burden in football players with hip and groin pain? <i>Speaker: Mark Scholes</i></p> <p>11.55AM – 12.10PM Hip external rotation strength is associated with running biomechanics in people with femoroacetabular impingement syndrome. <i>Speaker: Benjamin Mentiplay</i></p> <p>Room: Great Hall 1 & 2</p>	<p>Women's, Men's & Pelvic Health Theme: Men's health</p> <p>11.25 – 11.40AM The male pelvic floor – new and noteworthy. <i>Invited speaker: Paul Hodges</i></p> <p>11.40 – 11.55AM Pelvic floor anatomy and function in standing differs after radical prostatectomy for prostate cancer. <i>Speaker: David Cowley</i></p> <p>11.55AM – 12.00PM The impact of chronic pelvic pain in men: a new assessment tool. <i>Speaker: Thomas Astill</i></p> <p>12.00 – 12.10PM Questions</p> <p>Room: Great Hall 3</p>
<p>12.10– 1.10pm</p> <p style="text-align: center;">LUNCH</p>												

<p>Mini Keynote</p> <p>1.10 – 2.10pm</p>	<p>Mini Keynote 1 What's the buzz? The latest updates in mobile technology for physiotherapy <i>Keynote speakers: Leanne Hassett, Liliana Laranjo, Huong Ly Tong</i> Room: Great Hall 1 & 2</p>		<p>Mini Keynote 2 Managing uncertainty and complexity <i>Keynote speakers: Jenny Setchell, Naomi Fitzpatrick, Ellen Lake, Deepali Gupta</i> Room: Great Hall 3</p>		<p>Mini Keynote 3 Climate change, biodiversity loss and physiotherapy: improving planetary and patient health <i>Keynote speakers: Kathryn Bowen, Jessica Stanhope, Gillian Webb</i> Room: Great Hall 4</p>		<p>Mini Keynote 4 Sleep health and physiotherapy: what you may not know you need to know. <i>Keynote speakers: David Berlowitz, Sara Winter</i> Room: M 3</p>						
<p>Concurrent Session 7</p> <p>2.15 – 3.00pm</p>	<p>Cancer, Palliative Care & Lymphoedema Theme: Telehealth & exercise in cancer care 2.15 – 2.45PM The future is here: implementing telerehabilitation for cancer survivors. <i>Invited speaker: Amy Dennett</i> 2.45 – 3.00PM Exercise improves function, quality of life and fatigue in bone marrow transplantation: a systematic review and meta-analysis. <i>Speaker: Shaza Abo</i> Room: P 8</p>	<p>Cardiorespiratory A Theme: The impact of COVID-19 on clinical care 2.15 – 2.30PM Physiotherapy management for COVID-19: a collaboration with global impact. <i>Invited speaker: Peter Thomas</i> 2.30 – 2.45PM Responding to the changing demands of delivering physiotherapy care during the COVID-19 pandemic in a metropolitan Melbourne health service. <i>Speaker: Lisa Beach</i> 2.45 – 3.00PM Delayed recovery following COVID19: preliminary findings from Australia's COVID19 'epi-centre'. <i>Speaker: Kimberley Haines</i> Room: M 1 & 2</p> <p>Cardiorespiratory B Theme: Cardiac rehabilitation and cardiac surgery management 2.15 – 2.45PM How to: Integrating National Cardiac Rehabilitation Quality Indicators into practice. <i>Speaker: Amanda Buttery</i> 2.45 – 3.00PM Year in review: updates in exercise training for cardiac conditions. <i>Speaker: Julie Adsett</i> Room: P 9</p>	<p>Disability Theme: Physiotherapy intervention outcomes 2.15 – 2.30PM Investigating the effect of exercise interventions on participation and quality of life for adults with cerebral palsy – systematic review. <i>Speaker: James Czencz</i> 2.30 – 2.45PM Economic evaluation of the Activity and MObility UsiNg Technology (AMOUNT) rehabilitation trial. <i>Speaker: Marina Pinheiro</i> 2.45- 3.00PM Physiotherapy care in individuals with limb loss. <i>Speaker: Jeremy Bernal Salcedo</i> Room: P 6</p>	<p>Emergency Department Theme: Joint The acute swollen joint: assessment and management. <i>National keynote speaker: John Moi</i> Room: P 7</p>	<p>Gerontology Theme: Physical activity, AI and e-learning in ageing 2.15 – 2.45PM Artificial intelligence (AI), physical activity and aging in a digital era. <i>Invited speaker: Steven McPhail</i> 2.45 – 3.00PM Feasibility and acceptability of a falls prevention e-learning program for physiotherapists. <i>Speaker: Sze-Ee Soh</i> Room: M 3</p>	<p>Mental Health Theme: Informed mental health clinical practice 2.15 – 2.45PM Physiotherapy and mental health: not only a unique area of practice, but an important consideration across clinical settings. <i>Invited speaker: Richard Modderman</i> 2.45 – 3.00PM Mental disorders, from primary concern to co-morbidity: a scoping review in physiotherapy practice. <i>Speaker: Joanne Connaughton</i> Room: P 5</p>	<p>Musculoskeletal Theme: Management of musculoskeletal pain 2.15 – 2.45PM A clinical roadmap to managing a person with musculoskeletal pain. <i>Invited speaker: JP Caneiro</i> 2.45 – 3.00PM How do people communicate about knee osteoarthritis? <i>Speaker: Samantha Bunzli</i> Room: Great Hall 3</p>	<p>Neurology A Theme: Disability 2.15 – 2.45PM Physical inactivity and motor decline in young people with CP who have high support needs – to what extent are they interrelated? Can we do more? <i>Invited speaker: Sean Tweedy</i> 2.45 – 2.50PM Physiotherapist-provided instruction and feedback during mobility rehabilitation with and without active videogame and computer-based (AVC) technologies. <i>Speaker: Heather Weber</i> 2.50 – 2.55PM Characteristics and multidisciplinary team management of functional neurological disorders (FND) in a tertiary hospital <i>Speaker: Melissa Rixon</i> 2.55 – 3.00PM Increased long term engagement in exercise after a short term supervised gym program in persons with history of polio. <i>Speaker: Su Wen Ng</i> Room: P 3 & 4</p> <p>Neurology B Theme: Stroke 2.15 – 2.30PM Resumption of physical activity at two years following first stroke. <i>Speaker: Natalie Fini</i> 2.30 – 2.45PM Bobath training is inferior to task specific training in improving lower limb activities after stroke: a systematic review with meta-analysis. <i>Speaker: Katharine Scrivener</i> 2.45 – 3.00PM Postural control strategies in sitting are highly variable in people with lateropulsion post stroke. <i>Speaker: Melissa Birbaum</i> Room: P 1</p>	<p>Occupational Health Theme: Occupational risk 2.15 – 2.45PM Going beyond recovery expectations – identifying risk of delayed recovery. <i>Invited Speaker: Ross Iles</i> 2.45 – 3.00PM Can participatory ergonomics reduce work related musculoskeletal pain in sonographers? <i>Speaker: Kristie Sweeney</i> Room: P 2</p>	<p>Orthopaedic Theme: Virtual health 2.15 – 2.45PM How to set up a virtual clinic: bringing healthcare to patients in their own homes. <i>Speaker: Emily Cross</i> 2.45 – 2.50PM Cost-effectiveness of telerehabilitation versus traditional care after total hip replacement: a trial-based economic evaluation. <i>Speaker: Mark Nelson</i> 2.50 – 2.55PM Implementation of GLA:D® Telehealth by Australian physiotherapists during the COVID-19 pandemic. <i>Speaker: Allison Ezzat</i> Room: P 11</p>	<p>Paediatric Theme: Musculoskeletal participation 2.15 – 2.45PM Achondroplasia – levelling the playing field. <i>Invited speaker: Penny Ireland</i> 2.45 – 3.00PM Balance is important for gross motor skills in 8-10 year old girls. <i>Speaker: Margarite Tsiros</i> Room: P 10</p>	<p>Sports & Exercise Theme: Physical activity and sport 2.15 – 2.30PM Physical activity promotion by health professionals: educating our future workforce. <i>Speaker: Nicole Freene</i> 2.30 – 3.00PM Helping kids stay healthy long enough to "make it" in sport – the role of physiotherapy. <i>Invited speaker: Matt Whalan</i> Room: Great Hall 4</p>	<p>International Keynote Theme: Pain Pain is a whole person experience – a focus on 'pain vulnerability' and 'trauma-informed' care. <i>International keynote: Lester Jones</i> Room: Great Hall 1 & 2</p>
<p>3.00 – 3.30pm</p>	<p>AFTERNOON TEA</p>												

<p style="text-align: center;">Concurrent Session 8</p> <p style="text-align: center;">3.35 – 4.20pm</p>	<p>Cancer, Palliative Care & Lymphoedema Theme: Cancer care in clinical practice</p> <p>3.35 – 4.10PM How to apply an international guideline for treating / preventing cancer treatment-related oral mucositis. <i>Speaker: Lisa Laakso</i></p> <p>4.10 – 4.15PM The effectiveness of early, unrestricted exercise programs on upper limb function following breast cancer surgery: a systematic review and meta-analysis. <i>Speaker: Tara Redemski</i></p> <p>4.15 – 4.20PM More dedicated physiotherapy services for cancer survivors are needed in Australia: a national survey of oncology physiotherapy services. <i>Speaker: Clarice Tang</i></p> <p style="text-align: center;">Room: P 8</p>	<p>Cardiorespiratory A Theme: Burns care and recovery beyond ICU</p> <p>3.35 – 3.50PM The effect of sedation and inotropes on mobilisation of patients with burns in intensive care. A single-centre observational study. <i>Speaker: Lauren Bright</i></p> <p>3.50 – 4.05PM Physical activity levels in hospitalised adults with burn injuries. <i>Speaker: Anita Plaza</i></p> <p>4.05 – 4.10PM Incidence and cause of mortality in burns survivors. <i>Speaker: Vidal Corte-Real</i></p> <p>4.10 – 4.15PM Mapping the journey of intensive care patients beyond the ICU: a territory-wide audit. <i>Speaker: Tanya Buettikofer</i></p> <p style="text-align: center;">Room: M 1 & 2</p> <hr/> <p>Cardiorespiratory B Theme: Technology</p> <p>3.35 – 3.50PM Year in review – Application of technology use in respiratory disease. <i>Speaker: Renae McNamara</i></p> <p>3.50 – 4.05PM The development of a mobile game for maintaining physical activity in people with chronic obstructive pulmonary disease. <i>Speaker: Joshua Simmich</i></p> <p>4.05 – 4.10PM Validity of using a health status questionnaire to screen for fatigue in people with COPD referred to pulmonary rehabilitation. <i>Speaker: Zoe McKeough</i></p> <p>4.10 – 4.15PM Evaluation of text messages for use in the mobile pulmonary rehabilitation platform. <i>Speaker: Marita Dale</i></p> <p style="text-align: center;">Room: P 9</p>	<p>Emergency Department Theme: Emergency Department</p> <p>3.35 – 3.40PM Physiotherapy can strengthen the quality of care in the ED. <i>Speaker: Kirsten Strudwick</i></p> <p>3.40 – 3.45PM The Shetty Test in foot and ankle trauma: a pilot study assessing the accuracy compared to the Ottawa ankle/foot rules. <i>Speaker: Dave Jovic</i></p> <p>3.45 – 3.50PM Boxers fractures in the Emergency Department: an opportunity for care variability. <i>Speaker: Dave Jovic</i></p> <p>3.50 – 3.55PM Assessment and management of anterior shoulder dislocations in an Emergency Department compared with guidelines: a one year retrospective observational study. <i>Speaker: Rosalie Gan</i></p> <p>3.55 – 4.00PM Text messaging and web-based survey system to recruit patients with low back pain and collect outcomes in the Emergency Department. <i>Speaker: Anita Amorim</i></p> <p>4.00 – 4.15PM A foray into state-wide clinical audits of quality and safety for Emergency Department physiotherapy services. <i>Speaker: Kirsten Strudwick</i></p> <p style="text-align: center;">Room: P 7</p>	<p>Gerontology Theme: Measuring frailty and what to do about it</p> <p>3.35 – 4.05PM Measuring frailty and what to do about it. <i>Invited speaker: Ruth Hubbard</i></p> <p>4.05 – 4.20PM Functional decline to frailty: the slippery slope in community-dwelling adults. <i>Speaker: Susan Gordon</i></p> <p style="text-align: center;">Room: M 3</p>	<p>Musculoskeletal A Theme: Gym-based rehabilitation and plyometrics</p> <p>3.35 – 4.05PM Incorporating digital Patient Report Outcome Measures into clinical practice to advocate for physiotherapy to government and insurance bodies. <i>Speaker: Mark Opar</i></p> <p>4.05 – 4.20PM How do plyometrics prepare the plantarflexor musculotendon complex for the demands of running? <i>Speaker: Danielle Trowell</i></p> <p style="text-align: center;">Room: P 6</p> <hr/> <p>Musculoskeletal B Theme: Pain in the buttock and quick tips for shoulders</p> <p>3.35 – 4.05PM 'How to' What's causing that pain in the buttock? Exploring differential diagnosis of buttock pain. <i>Speaker: Alison Grimaldi</i></p> <p>4.05 – 4.10PM Public perceptions of different diagnostic labels for rotator cuff disease: a content analysis. <i>Speaker: Joshua Zadro</i></p> <p>4.10 – 4.15PM Shoulder pain and/or stiffness as an early symptom of Parkinson's disease: prevalence and physiotherapy awareness in an Australian population. <i>Speaker: Sarah Walmsley</i></p> <p>4.15 – 4.20PM A physiotherapy-led Shoulder/Elbow Triage and Assessment service safely and effectively reduces an orthopaedic clinic waitlist: the SHELTA trial. <i>Speaker: Chris Avdalis</i></p> <p style="text-align: center;">Room: P 10</p> <hr/> <p>Musculoskeletal C Theme: Assessment and management of musculoskeletal pain</p> <p>3.35 – 4.05PM 'How to' assess and manage people with common musculoskeletal pain conditions at risk of poor recovery. <i>Speaker: Trudy Rebbeck</i></p> <p>4.05 – 4.20PM Patients with low back pain admitted to hospital: who are they, why are they admitted and how are they managed? <i>Speaker: Alla Melman</i></p> <p style="text-align: center;">Room: P 11</p>	<p>Neurology A Theme: Concussion, vestibular disorders & tracheostomies</p> <p>3.35 – 3.50PM The use and effectiveness of web-based tools in assessment and intervention of vestibular disorders. <i>Speaker: Selena Hill</i></p> <p>3.50 – 4.05PM The influence of referral time for treatment and outcomes of individuals with persistent concussion symptoms. <i>Speaker: Megan Hamilton</i></p> <p>4.05 – 4.10PM Is there a relationship between vestibulo-ocular function, and concussion and musculoskeletal injuries in adolescent rugby union players? <i>Speaker: Abdul Shamim</i></p> <p>4.10 – 4.15PM The design & development of MOVE-IT: a system for remote vestibular and oculomotor assessment following concussion. <i>Speaker: Selena Hill</i></p> <p>4.15 – 4.20PM The use of pharmacological agents in managing secretions for tracheostomised patients admitted to an acute neurosciences ward: a retrospective review. <i>Speaker: Jonathan Tomkins</i></p> <p style="text-align: center;">Room: P 3 & 4</p> <hr/> <p>Neurology B Theme: Telehealth and stroke</p> <p>3.35 – 3.50PM Stroke telerehabilitation for people with moderate to severe disability: a codesigned program with stroke survivors, caregivers and clinicians. <i>Speaker: Catherine Said</i></p> <p>3.50 – 4.05PM Supervised weight-bearing exercise delivered via telehealth after stroke. A scoping review. <i>Speaker: Emily Ramage</i></p> <p>4.05 – 4.10PM Feasibility of a remotely supervised home-based group eHealth Fitness and Mobility Exercise program for people after stroke: (FAME@home) <i>Speaker: Marie-Louise Bird</i></p> <p>4.10 – 4.15PM Engagement in a self-management intervention targeting physical activity by stroke survivors. <i>Speaker: Neelam Nayak</i></p> <p>4.15 – 4.20PM Motor imagery priming combined with task training improves activity more than task training alone after stroke: systematic review with meta-analysis. <i>Speaker: Emma Fanayan</i></p> <p style="text-align: center;">Room: P 1</p>	<p>Occupational Health Theme: Technology and innovation</p> <p>3.35 – 4.05PM Applying research & design principles to product development for improved customer experience. <i>Speaker: Jenny Legge</i></p> <p>4.05 – 4.10PM Using wearable technology and Artificial Intelligence to create a worker MSD injury risk profile and drive behaviour change. <i>Speaker: Scott Coleman</i></p> <p>4.10 – 4.15PM The feasibility of training load tracking in a police recruit population. <i>Speaker: Daniel Maupin</i></p> <p style="text-align: center;">Room: P 2</p>	<p>Paediatric Theme: Neurological best practice</p> <p>3.35 – 4.05PM Advancing best practice in paediatric nerve and muscle disease: translating evidence into action. <i>Invited speaker: Paula Bray</i></p> <p>4.05 – 4.20PM Participation measures for young people aged 15 to <26 years with cerebral palsy. A systematic review. <i>Speaker: Leanne Johnston</i></p> <p style="text-align: center;">Room: Great Hall 3</p>	<p>Sports & Exercise Theme: Clinical injury prevention</p> <p>Clinically aligned injury prevention. <i>Invited speakers: Michael Drew, Matt Whalan</i></p> <p style="text-align: center;">Room: Great Hall 1 & 2</p>	<p>Women's, Men's & Pelvic Health Theme: Sexuality and disability</p> <p>3.35 – 3.55PM The Love, Intimacy and Disability Study – Promoting holistic sexual health support for people living with a spinal cord injury. <i>Invited speaker: Marita Heck</i></p> <p>3.55 – 4.15PM Let's talk about sex – how to holistically approach sexuality and fertility support for people living with a physical disability. <i>Invited speaker: Marita Heck</i></p> <p style="text-align: center;">Room: Great Hall 4</p>	<p>Physiotherapy General Theme: Technology</p> <p>3.35 – 3.50PM App-based supplemental exercise increases exercise dose but does not shorten length of stay in rehabilitation. <i>Speaker: Katharine Scrivener</i></p> <p>3.50 – 4.05PM Staff perspectives on the key elements to successful rapid uptake of telehealth in medium-sized public hospital physiotherapy departments. <i>Speaker: Megan Ross</i></p> <p>4.05 – 4.20PM Transitioning to a virtual model of physiotherapy and exercise physiology in rural NSW in response to Covid-19. <i>Speaker: Sarah Dennis</i></p> <p style="text-align: center;">Room: P 5</p>
	<p style="text-align: center;">4.35 – 5.35pm</p>	<p>PLENARY 4 Honoured members presentation <i>Founders address: Trudy Rebbeck</i></p> <p style="text-align: center;">College Graduation Great Hall 1 & 2</p>									

SATURDAY 2 APRIL 2022

7.30am	REGISTRATION
8.30 – 10.00am	<p style="color: #000080; font-weight: bold;">PLENARY 5</p> <div style="display: flex; justify-content: space-between;"> <div style="width: 45%;"> <p style="text-align: center;">8.30 – 9.00AM Journal of Physiotherapy Rob Herbert Oration: Research in physiotherapy: new methods to answer long-standing clinical questions <i>Speaker: Rob Herbert</i></p> <p style="text-align: center;">Great Hall 1 & 2</p> </div> <div style="width: 45%;"> <p style="text-align: center;">9.00 – 10.00AM Why me? All physios have a role in reconciliation and Aboriginal and Torres Strait Islander health <i>Keynote speakers: Donisha Duff, Scott Willis, Janine Mohamed</i></p> <p style="text-align: center;">Great Hall 1 & 2</p> </div> </div>

10.00 – 10.30am	MORNING TEA
-----------------	-------------

<p style="color: #000080; font-weight: bold;">Cardiorespiratory A</p> <p style="color: #000080; font-weight: bold;">Theme: Surgery: pre-operative to post-operative</p> <p>10.35 – 10.50AM Point-of-care assessment for diagnosis of lung pathology in a cohort of cardiothoracic surgery patients. <i>Speaker: Doa El-ansary</i></p> <p>10.50 – 10.55AM Translating research into practice: the addition of physiotherapy to preadmission clinic enhances patient preparedness for elective surgery. <i>Speaker: Erin Huttenmeister</i></p> <p>10.55 – 11.35AM Preventing pulmonary complications after major abdominal surgery – is early ambulation enough? <i>Invited speaker: Ianthe Boden</i></p> <p style="color: #000080; font-weight: bold;">Room: P 3 & 4</p>	<p style="color: #000080; font-weight: bold;">Gerontology</p> <p style="color: #000080; font-weight: bold;">Theme: Indigenous aging and mobility</p> <p>10.35 – 11.05AM Health, ageing and dementia in Aboriginal and Torres Strait Islander peoples. <i>Invited speaker: Kylie Radford</i></p> <p>11.05 – 11.35AM Mobility: what's the brain got to do with it, and how do we assess it? <i>Speaker: Michele Callisaya</i></p> <p style="color: #000080; font-weight: bold;">Room: M 1 & 2</p>	<p style="color: #000080; font-weight: bold;">Musculoskeletal A</p> <p style="color: #000080; font-weight: bold;">Theme: GLA:D</p> <p>10.35 – 10.50AM Implementation of Good Life with osteoArthritis in Denmark (GLA:D®) is feasible in Australian tertiary public hospitals. <i>Speaker: Natalie Collins</i></p> <p>10.50 – 11.05AM Service providers' perceptions of factors influencing the introduction and sustainability of GLA:D® in Australian public tertiary hospitals. <i>Speaker: Michelle Cottrell</i></p> <p>11.05 – 11.20AM Program evaluation of GLA:D® Australia: physiotherapist training outcomes and effectiveness of implementation for people with knee osteoarthritis. <i>Speaker: Christian Barton</i></p> <p>11.20 – 11.35AM Panel Q&A facilitated by Bill Vicenzino <i>Room: P 2</i></p>	<p style="color: #000080; font-weight: bold;">Neurology</p> <p style="color: #000080; font-weight: bold;">Theme: Spinal cord injuries</p> <p>Evidence-based physiotherapy for people with spinal cord injuries: generating, collating and disseminating the evidence. <i>National keynote speaker: Lisa Harvey</i></p> <p style="color: #000080; font-weight: bold;">Room: Great Hall 3</p>	<p style="color: #000080; font-weight: bold;">Paediatric</p> <p style="color: #000080; font-weight: bold;">Theme: Cardiorespiratory</p> <p>10.35 – 11.05AM Using technology to improve home-based outpatient physiotherapy for children with respiratory disorders. <i>Invited speaker: Ray Lang</i></p> <p>11.05 – 11.20AM The effects of chest physiotherapy on regional lung volume changes in ventilated children using electrical impedance tomography. <i>Speaker: Bronagh McAlinden</i></p> <p>11.20 – 11.35AM Barriers and facilitators of habitual physical activity for children with bronchiectasis: perspectives from children and parents. <i>Speaker: Taryn Jones</i></p> <p style="color: #000080; font-weight: bold;">Room: P 11</p>	<p style="color: #000080; font-weight: bold;">Pain</p> <p style="color: #000080; font-weight: bold;">Theme: Therapeutic alliance</p> <p>The little known benefits of therapeutic alliance for patients and clinicians in chronic pain management. <i>Invited speaker: Claire Ashton-James</i></p> <p style="color: #000080; font-weight: bold;">Room: M 3</p>	<p style="color: #000080; font-weight: bold;">Sports & Exercise A</p> <p style="color: #000080; font-weight: bold;">Theme: Exercise prescription 'how to' sessions</p> <p>10.35 – 11.05AM Therapeutic exercise for the intrinsic foot muscles: applying biomechanical evidence and clinical reasoning to guide exercise prescription. <i>Speaker: Melinda Franetovich Smith</i></p> <p>11.05 – 11.35AM TBC <i>Speaker: TBC</i></p> <p style="color: #000080; font-weight: bold;">Room: P 10</p>	<p style="color: #000080; font-weight: bold;">Sports & Exercise B</p> <p style="color: #000080; font-weight: bold;">Theme: ACL injuries</p> <p>10.35 – 10.50AM Fear of re-injury following surgical and non-surgical management of anterior cruciate ligament injury: the NACOX multicentre longitudinal cohort study. <i>Speaker: Stephanie Filbay</i></p> <p>10.50 – 11.05AM Surgical versus non-surgical management rationale following anterior cruciate ligament injury – a scoping review and in-practice case study. <i>Speaker: David Donkin</i></p> <p>11.05 – 11.20AM Prevalence of radiographic tibiofemoral and patellofemoral osteoarthritis in anterior cruciate ligament deficient knees 12 years post-injury. <i>Speaker: Sue Keays</i></p> <p>11.20 – 11.35AM Intensive supervised rehabilitation versus less supervised rehabilitation following anterior cruciate ligament reconstruction. A systematic review and meta-analysis. <i>Speaker: Andrew Gamble</i></p> <p style="color: #000080; font-weight: bold;">Room: P 7</p>	<p style="color: #000080; font-weight: bold;">Women's, Men's & Pelvic Health</p> <p style="color: #000080; font-weight: bold;">Theme: Pain</p> <p>10.35 – 10.50AM Screening for psychosocial factors in individuals with pelvic pain. An e-Delphi study. <i>Speaker: Judith Thompson</i></p> <p>10.50 – 11.00AM Assessing the validity and reliability of the Pelvic Pain Psychological Screening Questionnaire (3PSQ) in people with persistent pelvic pain. <i>Speaker: Leanne Slater</i></p> <p>11.00 – 11.15AM Prevalence and factors associated with pregnancy-related pelvic girdle pain in western Sydney women. <i>Speaker: Dragana Cepmija</i></p> <p>11.15 – 11.30AM Patient and clinician perspectives on pelvic floor dysfunction and pelvic floor therapy after gynaecological cancer treatment. <i>Speaker: Robyn Brennan</i></p> <p>11.30 – 11.35AM Experiences and perspectives of pelvic floor dysfunction and treatment in women with breast cancer: a qualitative study. <i>Speaker: Udari Colombage</i></p> <p style="color: #000080; font-weight: bold;">Room: Great Hall 4</p>	<p style="color: #000080; font-weight: bold;">Physiotherapy General</p> <p style="color: #000080; font-weight: bold;">Theme: COVID-19</p> <p>10.35 – 10.50AM Physical and psychological function 6 months after "mild" COVID-19. <i>Speaker: Wendy Bower</i></p> <p>10.50 – 11.05AM Patient access and experiences in obtaining physiotherapy in Canada during the COVID-19 pandemic. <i>Speaker: Allison Ezzat</i></p> <p>11.05 – 11.20AM Changes in perceptions of telerehabilitation for physiotherapists in response to the COVID-19 pandemic and restrictions imposed on in-person consultations. <i>Speaker: Vicki Parravicini</i></p> <p>11.20 – 11.35AM Consumer experience of physiotherapy via telehealth during the COVID-19 pandemic. <i>Speaker: Andrew Rank</i></p> <p style="color: #000080; font-weight: bold;">Room: P 8</p>	<p style="color: #000080; font-weight: bold;">International Keynote</p> <p style="color: #000080; font-weight: bold;">Theme: Function and workability</p> <p>Maximising function and work ability throughout the lifecourse. <i>International keynote speaker: Karen Walker-Bone</i></p> <p style="color: #000080; font-weight: bold;">Room: Great Hall 1 & 2</p>	<p style="color: #000080; font-weight: bold;">JoP Workshop</p> <p><i>Presenter: Mark Elkins</i></p> <p style="color: #000080; font-weight: bold;">Room: P 5</p>
<p style="color: #000080; font-weight: bold;">Concurrent Session 9</p> <p>10.35 – 11.35am</p>	<p style="color: #000080; font-weight: bold;">Cardiorespiratory B</p> <p style="color: #000080; font-weight: bold;">Theme: Physiotherapy strategies for COPD</p> <p>10.35 – 10.50AM A behaviour change intervention to reduce sedentary behaviour in people with chronic obstructive pulmonary disease: a qualitative study. <i>Speaker: Catherine Guan</i></p> <p>10.50 – 11.05AM Experts perspectives on blood flow restricted exercise: Delphi survey. <i>Speaker: Elisio Pereira-neto</i></p> <p>11.05 – 11.20AM Blood flow restricted exercise in people with chronic obstructive pulmonary disease: perspectives of key stakeholders. <i>Speaker: Elisio Pereira-neto</i></p> <p>11.20 – 11.35AM Year in review – Sedentary behaviour strategies for COPD. <i>Speaker: Angela Burge</i></p> <p style="color: #000080; font-weight: bold;">Room: P 1</p>	<p style="color: #000080; font-weight: bold;">Musculoskeletal B</p> <p style="color: #000080; font-weight: bold;">Theme: Whiplash</p> <p>10.35 – 10.50AM Trauma-focused cognitive behavioural therapy and physiotherapy for chronic whiplash with comorbid PTSD: a randomised controlled trial. <i>Speaker: Michele Sterling</i></p> <p>10.50 – 11.05AM Accuracy of WhipPredict versus the short form Örebro Musculoskeletal Pain Screening Questionnaire to predict poor recovery after whiplash injury. <i>Speaker: Michele Sterling</i></p> <p>11.05 – 11.20AM Do expectations of recovery improve risk assessment for people with whiplash? <i>Speaker: Alex Griffin</i></p> <p>11.20 – 11.35AM Clinimetric properties of self-reported disability scales for whiplash: a systematic review for the whiplash core outcome set (CATWAD). <i>Speaker: Alex Griffin</i></p> <p style="color: #000080; font-weight: bold;">Room: P 9</p>									

<p>Concurrent Session 10</p> <p>11.40am – 12.40pm</p>	<p>Cardiorespiratory A Theme: Early mobility and function in critically ill populations</p> <p>11.40 – 11.55AM What are the functional outcomes for intensive care survivors in an intensive care unit with an established early mobility culture? <i>Speaker: Vince Marzano</i></p> <p>11.55AM – 12.10PM Searching for the responder: do patient characteristics modify rehabilitation outcomes of adults with critical illness. <i>Speaker: Jennifer Jones</i></p> <p>12.10 – 12.40PM Demystifying the burden of critical illness. <i>Invited speaker: Selina Parry</i></p> <p>Room: Great Hall 3</p>	<p>Gerontology Theme: Dementia, what has physio got to do with it?</p> <p>11.40AM – 12.05PM What does a physiotherapist do for someone with dementia? <i>Invited speaker: Katherine Lawler</i></p> <p>12.05 – 12.20PM Physiotherapists' and physiotherapy students' attitudes and beliefs about working with people with dementia: a mixed methods systematic review. <i>Speaker: Stephen Quick</i></p> <p>12.20 – 12.25PM Geriatric rehabilitation inpatients roam at home! <i>Speaker: Jacinta Foster</i></p> <p>12.25 – 12.40PM Panel discussion – Managing people with dementia. <i>Invited speakers: Katherine Lawler, Anne-Marie Hill, Kylie Radford</i></p> <p>Room: M 1 & 2</p>	<p>Musculoskeletal A Theme: Digital health</p> <p>11.40 – 11.55AM The health economic outcomes of outpatient musculoskeletal physiotherapy delivered by telehealth: a systematic review. <i>Speaker: Sarah Kitcher</i></p> <p>11.55AM – 12.10PM The telehealth experience in physiotherapy outpatient services during the COVID-19 pandemic. <i>Speaker: Dragana Cepmja</i></p> <p>12.10 – 12.25PM Availability, content and quality of commercially available smartphone applications for the self-management of low back pain: a systematic assessment. <i>Speaker: Claudia Didyk</i></p> <p>12.25 – 12.40PM 'It's not hands-on therapy, so it's very limited': telehealth use and views among allied health clinicians during the coronavirus pandemic. <i>Speaker: Peter Malliaras</i></p> <p>Room: P 2</p>	<p>Neurology A Theme: Technology in Physiotherapy</p> <p>11.40 – 11.55AM Physiotherapists' focus of visual attention during mobility rehabilitation with and without active videogame and computer-based (AVC) technologies. <i>Speaker: Heather Weber</i></p> <p>11.55AM – 12.10PM Use of wearable activity monitors in clinical settings in South Australia – mapping current practice and identifying future opportunities. <i>Speaker: Carol Maher</i></p> <p>12.10 – 12.25PM Physiotherapy provided by telehealth can support people with Parkinson's disease to exercise at home. <i>Speaker: Allyson Flynn</i></p> <p>12.25 – 12.40PM The cost, barriers, and challenges of including virtual reality in neurological rehabilitation? A scoping review. <i>Speaker: Suzanne Gough</i></p> <p>Room: P 1</p>	<p>Occupational Health Theme: Return to work</p> <p>11.40AM – 12.10PM Physiotherapists influencing timely and sustained return to work in South Australia. <i>Speaker: Cassandra Zaina</i></p> <p>12.10 – 12.25PM Multiple stakeholders' views of vocational rehabilitation following brain injury in Queensland, Australia: a qualitative study. <i>Speaker: Venerina Johnston</i></p> <p>Room: P 5</p>	<p>Paediatric A Theme: NDIS & Other</p> <p>11.40AM – 12.10PM Navigating the national disability insurance scheme: how to successfully complete assistive technology assessments. <i>Speaker: Kristy Nicola</i></p> <p>12.10 – 12.25PM Measuring physical literacy beyond the physical domain: assessing psychological, cognitive, and social activity competence in school-aged children with neurodevelopmental disabilities. <i>Speaker: Sandeep Weerackody</i></p> <p>12.25 – 12.40PM Postural control in children with developmental coordination disorder: a systematic review of clinical measurement tools. <i>Speaker: Benjamin Johnston</i></p> <p>Room: P 11</p>	<p>Pain Theme: Pain general</p> <p>11.40AM – 11.55AM Can a consumer-focused website for low back pain change health literacy, treatment choices and clinical outcomes? A randomised controlled trial. <i>Speaker: Paul Hodges</i></p> <p>11.55AM – 12.10PM Effects of exercise on pain in people with Parkinson's disease: a systematic review. <i>Speaker: Vanessa Nguy</i></p> <p>12.10 – 12.25PM GABA+ levels correlate with change in migraine frequency; a longitudinal cohort study. <i>Speaker: Aimie Peek</i></p> <p>12.25 – 12.30PM Walking, cycling and swimming for the prevention and treatment of low back pain: a systematic review with meta-analysis. <i>Speaker: Natasha Pocovi</i></p> <p>12.30 – 12.35PM Factors associated with care-seeking for low back pain when genetics and the familial environment are considered. <i>Speaker: Thomas Patterson</i></p> <p>Room: M 3</p>	<p>Sports & Exercise Theme: Managing injuries in active kids</p> <p>11.40AM – 12.00PM Managing bone injuries in teens and pre-teens. <i>Invited speaker: David Spurrier</i></p> <p>12.00 – 12.20PM Risk factors and management of lumbar bone stress injury in youth fast bowlers. <i>Invited speaker: Kevin Sims</i></p> <p>12.20 – 12.40PM Panel discussion: How to prevent breakdown and successfully keep active kids in sport. <i>Invited speakers: David Spurrier, Kevin Sims, Matt Whalan, Kate Mahony</i></p> <p>Room: Great Hall 1 & 2</p>	<p>Women's, Men's & Pelvic Health A Theme: Exercise and women's health</p> <p>11.40AM – 12.10PM What is known about women's health-related risk factors for injury in female athletes: sex-related differences in athlete injury epidemiology. <i>Invited speaker: Andrea Mosler</i></p> <p>12.10 – 12.20PM A consumer co-created infographic improves knowledge about physical activity and self-efficacy to exercise in women with GDM: a randomised trial. <i>Speaker: Anne Harrison</i></p> <p>12.20 – 12.30PM Screening and management of pelvic floor symptoms in exercising women: online survey of 636 health and exercise professionals. <i>Speaker: Jodie Dakic</i></p> <p>12.30 – 12.35PM Early postpartum rectus abdominis vs transversus abdominis exercise and the effect on the inter-recti distance in DRAM. <i>Speaker: Eloise Simpson</i></p> <p>12.35 – 12.40PM Influences on participation in pelvic floor muscle training: a systematic review and meta-synthesis of the qualitative literature. <i>Speaker: Clarice Tang</i></p> <p>Room: P 7</p>	
	<p>Cardiorespiratory B Theme: Interventions in chronic lung disease and breathlessness</p> <p>11.40 – 11.55AM Year in review: CFTR modulator therapies and the changing face of cystic fibrosis care. <i>Speaker: Michelle Wood</i></p> <p>11.55AM – 12.10PM Telehealth-preferred outpatient physiotherapy compared to in-person care for children with cystic fibrosis: a randomised controlled trial. <i>Speaker: Ray Lang</i></p> <p>12.10 – 12.25PM Synthesis of 'within workshop' feedback reflecting learning experiences of health professionals in the practical management of chronic breathlessness. <i>Speaker: Erin Lyons</i></p> <p>12.25 – 12.30PM Clinical usage of non-invasive ventilation by physiotherapists in cystic fibrosis centres across Australia: a cross-sectional survey study. <i>Speaker: Molly Foxcroft</i></p> <p>12.30 – 12.35PM What pressures are achievable with Bubble PEP? The performance characteristics of a water-based oscillating Positive Expiratory Pressure device. <i>Speaker: Maja Leech</i></p> <p>12.35 – 12.40PM Physiotherapy service provision to respiratory medicine inpatients with COPD or bronchiectasis at an acute tertiary Melbourne hospital. <i>Speaker: Nicole Elsegood</i></p> <p>Room: P 3 & 4</p>		<p>Musculoskeletal B Theme: Shoulder</p> <p>11.40 – 11.55AM 'Physio's not going to repair a torn tendon': patient decision-making related to surgery for rotator cuff related shoulder pain. <i>Speaker: Peter Malliaras</i></p> <p>11.55AM – 12.10PM Online information about the effectiveness of shoulder surgery is not evidence-based: a content analysis. <i>Speaker: Joshua Zadro</i></p> <p>12.10 – 12.25PM The work and quality of life impacts of persistent shoulder pain in younger people. <i>Speaker: Ilana Ackerman</i></p> <p>12.25 – 12.40PM Immediate response to subacromial injection is associated with conservative care outcomes for shoulder pain. <i>Speaker: Darryn Marks</i></p> <p>Room: P 9</p>	<p>Neurology B Theme: Spasticity</p> <p>11.40AM – 12.25PM The treatment of focal spasticity to improve function in people with neurological conditions. <i>Invited speaker: Gavin Williams</i></p> <p>12.25 – 12.40PM Randomised controlled trials do not adhere to focal muscle spasticity guidelines: a systematic review. <i>Speaker: Edwina Sutherland</i></p> <p>Room: P</p> <p>Neurology C Theme: Stroke, Myasthenia Gravis and insomnia</p> <p>11.40 – 11.55AM Acute effects of aerobic exercise on brain derived neurotrophic factor and cognition in chronic stroke. <i>Speaker: Christopher Mackay</i></p> <p>11.55AM – 12.10PM Standing weight-bearing asymmetry in adults with lateropulsion following stroke. <i>Speaker: Melissa Birnbaum</i></p> <p>12.10 – 12.25PM Physical activity and sedentary behaviour in people with myasthenia gravis. <i>Speaker: Tahlia Alsop</i></p> <p>12.25 – 12.40PM The influence of insomnia symptoms on the association of parental spinal pain and recovery from spinal pain in adult offspring. <i>Speaker: Anita Amorim</i></p> <p>Room: P 6</p>		<p>Paediatric B Theme: Other neuro-orthopaedic</p> <p>11.40 – 11.55AM Gross motor function is explained by lower limb strength in children with spina bifida - closed spinal dysraphism. <i>Speaker: Nathalie Tan</i></p> <p>11.55AM – 12.10PM Feasibility and reliability of a Paediatric examination of lower limb in young people and children Neurological (PeLLycaN): a pilot test. <i>Speaker: Ramona Clark</i></p> <p>12.10 – 12.25PM Five-year follow-up of the ponseti management of (infants born with) congenital talipes equinovarus using soft-cast. <i>Speaker: Chez Freeman</i></p> <p>12.25 – 12.40PM Schroth therapy for adolescents with idiopathic scoliosis: professional characteristics and treatment methods of Schroth therapists. <i>Speaker: Rosemary Marchese</i></p> <p>Room: P 10</p>			<p>Women's, Men's & Pelvic Health B Theme: Innovative delivery of physiotherapy services</p> <p>11.40 – 11.50AM Early intervention gynaecology service. <i>Speaker: Laura Restoux</i></p> <p>11:50AM – 12:05PM Are Indigenous people in regional, rural, and remote Australia missing out on culturally responsive women's and men's health physiotherapy? <i>Speaker: Kerstin McPherson</i></p> <p>12:05 – 12:15PM Telehealth continence education classes: a feasible alternative to in-person classes. <i>Speaker: Marielle Collings</i></p> <p>12.15 – 12.40PM Telehealth for Women's Men's and Pelvic Health Physiotherapy – increasing service delivery to regional, rural, and remote Australians. <i>Speaker: Kerstin McPherson</i></p> <p>Room: P 8</p>	

12.40 – 1.40pm	LUNCH										
----------------	-------	--	--	--	--	--	--	--	--	--	--

Concurrent Session 11 1.40 – 2.25pm	<p>Cardiorespiratory A Symposium Theme: An implementation science approach to improving physical activity practices across the lifespan in physiotherapy: lessons learned and practical applications</p> <p>1.40 – 1.55PM Towards recording airway clearance, physical activity and fitness on the Australian Cystic Fibrosis data registry: a consensus approach. <i>Speaker: Angela Potter</i></p> <p>1.55 – 2.10PM Applying the GRADE methodology to develop clinical guidelines for physical activity and sedentary behaviour in acute hospital inpatients. <i>Speaker: Claire Baldwin</i></p> <p>2.10 – 2.25PM Assessing the evidence-practice gap for physical activity and screen time practices in Australia outside-school-hours care. <i>Speaker: Rosa Virgara</i></p> <p style="text-align: center;">Room: P 3 & 4</p>	<p>Educators Theme: Lifelong learning in cardiorespiratory physiotherapy</p> <p>1.40 – 1.55PM Clinical reasoning oral examination (CROE): an educational response to covid-19 to consolidate and assess evidence informed physiotherapy cardiorespiratory practice. <i>Speaker: Claire Hines</i></p> <p>1.55 – 2.00PM Meeting the learning needs of our learners: an investigation of a tracheostomy competency process. <i>Speaker: Caitlin Devanny</i></p> <p>2.00 – 2.15PM Simulation improves physiotherapists' confidence with mobilising intubated ventilated intensive care patients. <i>Speaker: Alison Blunt</i></p> <p>2.15 – 2.20PM Using high-fidelity simulation to prepare physiotherapists to respond to the threatened airway of a tracheostomised patient. <i>Speaker: David Priddle</i></p> <p style="text-align: center;">Room: P 10</p>	<p>Gerontology Theme: Chronic conditions (cellulitis, nocturia and knee OA)</p> <p>1.40 – 2.05PM Application, costs and benefits of compression therapy to prevent recurrent cellulitis. <i>Invited speaker: Elizabeth Webb</i></p> <p>2.05 – 2.10PM The experience of nocturia in hospital: considerations for the gerontology physiotherapist. <i>Speaker: Alisha Da Silva</i></p> <p>2.10 – 2.25PM Self-directed web-based strengthening exercise supported by automated text messages for people with knee osteoarthritis: a randomised controlled trial. <i>Speaker: Rachel Nelligan</i></p> <p style="text-align: center;">Room: P 1</p>	<p>Musculoskeletal A Theme: Beliefs and low back pain predictors</p> <p>1.40 – 1.55PM Exploring the beliefs, knowledge and impact of osteoarthritis on Aboriginal people in Victoria and Western Australia. <i>Speaker: Penny O'Brien</i></p> <p>1.55 – 2.10PM Back pain beliefs of Indian migrants in Australia. <i>Speaker: Pavithra Rajan</i></p> <p>2.10 – 2.15PM Assessment of central pain processing improves predictive accuracy of the STaRT Back Tool in acute low back pain. <i>Speaker: Wei-Ju Chang</i></p> <p>2.15 – 2.20PM Risk factors for low back pain outcome: does it matter when they are measured? <i>Speaker: David Klyne</i></p> <p style="text-align: center;">Room: Great Hall 3</p>	<p>Neurology A Theme: Stroke</p> <p>1.40 – 1.55PM Developing and implementing an exercise group for stroke survivors and their carers: the Carers Count group. <i>Speaker: Tamina Levy</i></p> <p>1.55 – 2.10PM From theory to practice: utilisation of the Knowledge-to-Action Framework to improve physiotherapy management of individuals following a stroke. <i>Speaker: Gemma Allinson</i></p> <p>2.10 – 2.25PM Depression and a lack of socialisation contribute to high levels of boredom during stroke rehabilitation: an exploratory study. <i>Speaker: Katrina Kenah</i></p> <p style="text-align: center;">Room: P 5</p>	<p>Occupational Health Theme: Occupational risk</p> <p>1.40 – 1.55PM Musicians' compensation claims: what do they tell us about musculoskeletal disorders? <i>Speaker: Jessica Stanhope</i></p> <p>1.55 – 2.10PM Exposure to risk factors for the development of lower limb osteoarthritis during Army infantry training. <i>Speaker: Rob Orr</i></p> <p>2.10 – 2.15PM Risk factors for the development of SLAP tears in physically demanding occupations: a systematic review and meta-analysis. <i>Speaker: Patrick Campbell</i></p> <p style="text-align: center;">Room: P 7</p>	<p>Paediatric Theme: Infants</p> <p>1.40 – 2.10PM How to engage parents in a developmental follow-up program to enhance infant outcomes. <i>Speaker: Kelly Reynolds</i></p> <p>2.10 – 2.25PM What is persistent surgical pain in neonates admitted to the neonatal intensive care unit? Study protocol and recruitment experiences. <i>Speaker: Emre Ilhan</i></p> <p style="text-align: center;">Room: P 8</p>	<p>Pain Theme: Psychologically informed practice</p> <p>What do you mean by psychologically informed practice? <i>Speakers: Des O'Shaughnessy, Tania Gardner</i></p> <p style="text-align: center;">Room: P 9</p>	<p>Sports & Exercise A Theme: Targeted athlete management</p> <p>1.40 – 2.10PM Optimising female athlete health for performance. <i>Invited speaker: Kate Mahony</i></p> <p>2.10 – 2.25PM Physiotherapy strategies for injury management and maximising performance in para-athletes. <i>Speaker: Melissa Crunkhorn</i></p> <p style="text-align: center;">Room: M 3</p>	<p>Women's, Men's & Pelvic Health Theme: Maternity</p> <p>1.40 – 2.10PM "How To" Thriving in pregnancy, birth and beyond: the co-design of a perinatal education program delivered via multiple formats. <i>Speaker: Sheridan Guyatt</i></p> <p>2.10 – 2.20PM Comparing perceived heating effect and intensity of therapeutic ultrasound between breast and calf tissue in lactating women: an observational study. <i>Speaker: Lauren Neill</i></p> <p>2.20 – 2.25PM Group-based pelvic floor muscle training for all pregnant women is more cost-effective than post-natal training for women with urinary incontinence. <i>Speaker: Robyn Brennan</i></p> <p style="text-align: center;">Room: Great Hall 1 & 2</p>	<p>Physiotherapy General Theme: Obesity/physical activity</p> <p>1.40 – 1.55PM The lived experience of patients with obesity at a metropolitan public health service. <i>Speaker: Catherine Said</i></p> <p>1.55 – 2.10PM Volume and quality of evidence of physical activity trials indexed in PEDro: a scoping review. <i>Speaker: Marina Pinheiro</i></p> <p>2.10 – 2.15PM Professional referral to physical activity, sport and exercise: perspectives from physiotherapists. <i>Speaker: Kerry West</i></p> <p>2.15 – 2.20PM Levels of physical activity and sedentary behaviour during and after hospitalisation: a systematic review. <i>Speaker: Asher Kirk</i></p> <p style="text-align: center;">Room: P 6</p>
	<p>Cardiorespiratory B Theme: The latest approaches in trauma care</p> <p>1.40 - 2.05PM Management of major trauma patients: the role of cardiorespiratory physiotherapy. <i>Invited speaker: Peter Thomas</i></p> <p>2.05 - 2.20PM Prospective evaluation of missed musculoskeletal injuries in trauma. <i>Speaker: Serena Hong</i></p> <p>2.20 - 2.25PM PEP therapy improves lung volumes but does not clearly change admission outcomes in chest trauma: a systematic review and meta-analysis. <i>Speaker: Kerrie Saliba</i></p> <p style="text-align: center;">Room: M 1 & 2</p>	<p>Neurology B Theme: Multiple sclerosis & FND</p> <p>1.40 – 1.55PM Vestibular and visual impairments and the associations with walking and movement limitations in people with multiple sclerosis (MS). <i>Speaker: Katrina Williams</i></p> <p>1.55 – 2.10PM The effect of the Australian bushfires and the COVID-19 pandemic on health behaviours in people with multiple sclerosis. <i>Speaker: Yvonne Learmonth</i></p> <p>2.10 – 2.15PM Feasibility and validity of mobile software devices to determine gait parameters in neurological populations. <i>Speaker: Yvonne Learmonth</i></p> <p>2.15 – 2.20PM Functional (psychogenic) gait disorders: a review of the literature. <i>Speaker: Sara Issak</i></p> <p>2.20 – 2.25PM Multiple sclerosis – finding the right balance with exercise and sport. A feasibility study. <i>Speaker: Moira Smith</i></p> <p style="text-align: center;">Room: Great Hall 4</p>	<p>Musculoskeletal B Theme: Digital health and models of care</p> <p>1.40 – 2.10PM eHealth, mHealth and sustainable models of care. <i>Invited speaker: Helen Slater</i></p> <p>2.10 – 2.15PM Digital health technology to support musculoskeletal physiotherapy: routine clinical assessment practices, and willingness to use digital interventions. <i>Speaker: Mark Merolli</i></p> <p>2.15 – 2.20PM Impact of an interactive workshop about a new musculoskeletal care pathway on physiotherapists' knowledge, beliefs and practice. <i>Speaker: Kwangil Kangneil</i></p> <p>2.20 – 2.25PM Referral practices of allied health and medical practitioners when caring for people with musculoskeletal pain. <i>Speaker: Sonia Coates</i></p> <p style="text-align: center;">Room: P 11</p>	<p>Sports & Exercise B Theme: Specific athlete management</p> <p>1.40 – 1.55PM Use of compression garments to improve performance for trained populations: a systematic review. <i>Speaker: Vinicius Simas</i></p> <p>1.55 – 2.10PM The rise of modern rock climbing – reducing the gap between climber and clinician. <i>Speaker: Paul Norris</i></p> <p>2.10 – 2.25PM HAPPI Kneecaps! A feasibility trial of foot orthoses versus flat shoe insoles for adolescents with patellofemoral pain. <i>Speaker: Isobel O'Sullivan</i></p> <p style="text-align: center;">Room: P 2</p>							

<p>Concurrent Session 12</p> <p>2.30 – 3.15pm</p>	<p>Acupuncture & Dry Needling Theme: The science of the practice of acupuncture & dry needling</p> <p>2.30 – 2.55PM Managing modern complex health conditions with an ancient mindfulness exercise – Tai Chi. What does the current evidence tell us? <i>Invited speaker: Jenny Lucy</i></p> <p>2.55 – 3.15PM Needling in the foot and ankle region, latest evidence, safety concerns and practical techniques. <i>Speaker: Leigh McCutcheon</i></p> <p>Room: P 7</p>	<p>Cardiorespiratory Theme: Medio-legal ramifications; awards</p> <p>2.30 – 3.00PM Human error or outright negligence? Analysis of a medico-legal case occurring in an intensive care unit. <i>Invited speaker: Jennifer Paratz</i></p> <p>3.00 – 3.15PM Awards, national update and cardiorespiratory conference close. <i>Speaker: Meredith King and Annemarie Lee</i></p> <p>Room: M 1 & 2</p>	<p>Emergency Department Theme: Back pain</p> <p>Inflammatory back pain – diagnosis, risk factors and treatment. <i>Invited speaker: John Moi</i></p> <p>Room: P 2</p>	<p>Gerontology Theme: Finding the evidence</p> <p>2.30 – 2.45PM Adherence to exercise programs in community-dwelling older adults following a hip fracture: a systematic review. <i>Speaker: Sze-Ee Soh</i></p> <p>2.45 – 3.15PM How to search PEDro to answer clinical questions about the effects of physiotherapy in older people and neurology. <i>Speaker: Anne Moseley</i></p> <p>Room: P 1</p>	<p>Musculoskeletal A Theme: Low back pain</p> <p>2.30 – 2.45PM Agreement between diagnoses recorded in the emergency department and inpatient units for patients with low back pain. <i>Speaker: Alla Melman</i></p> <p>2.45 – 3.00PM Can poor sleep and sedentary behaviour trigger a low back pain flare? Objective measures from wearable sensors. <i>Speaker: Nathalia Costa</i></p> <p>3.00 – 3.15PM The association between different trajectories of low back pain and degenerative imaging findings in young adults from the Raine Study. <i>Speaker: Mark Hancock</i></p> <p>Room: Great Hall 3</p> <hr/> <p>Musculoskeletal B Theme: The lucky dip – an interesting mix</p> <p>2.30 – 2.45PM Early recognition of cervical arterial dissection in primary care. <i>Speaker: Lucy Thomas</i></p> <p>2.45 – 2.50PM Hosting pre-registration physiotherapy students in Australian musculoskeletal private practices does not change service and economic outcomes: an economic analysis. <i>Speaker: Roma Forbes</i></p> <p>2.50 – 2.55PM 3D tropism of cervical facets is not related to the amount of segmental movement or perceived symptomatic location. <i>Speaker: Neil Tuttle</i></p> <p>2.55 – 3.10PM “What if it doesn’t unlock?: a qualitative study into the lived experiences of adults with persistent intra-articular temporomandibular disorders. <i>Speaker: Alana Dinsdale</i></p> <p>3.10 – 3.15PM A qualitative investigation of patients’ perspectives on participation in combined stress inoculation training and exercise for acute whiplash. <i>Speaker: Alma Viviana, Silva Guerrero</i></p> <p>Room: P 11</p>	<p>Neurology Theme: Parkinson’s disease & Awards</p> <p>2.30 – 3.00PM Exercise in Parkinson’s disease. <i>Invited speaker: Robyn Lamont</i></p> <p>3.00 – 3.15PM NNG Presentation and Conference Awards Presentation.</p> <p>Room: Great Hall 4</p>	<p>Paediatric Theme: Neurodevelopmental best practice</p> <p>2.30 – 3.10PM Early screening for adverse neurodevelopmental outcomes in infants with newborn detectable risk factors: translation of research into standard clinical care at a state-wide level. <i>National keynote speaker: Joanne George</i></p> <p>3.10 – 3.15PM Presentations of prizes. Room: P 3 & 4</p>	<p>Pain Theme: Patient equity</p> <p>2.30 – 2.45PM Arabic-speaking patients experienced greater difficulties when completing the Brief Pain Inventory (BPI) as compared to English-speaking patients: exploratory mixed-method study. <i>Speaker: Gopi Patel</i></p> <p>2.45 – 3.00PM The patients’ and clinicians’ perspectives of emotional support: a qualitative study in chronic and complex outpatient multidisciplinary care. <i>Speaker: Jane Bradshaw</i></p> <p>Room: P 9</p>	<p>Sports & Exercise Theme: Managing shoulder pain</p> <p>2:30 – 3:00PM Strengthening for rotator cuff-related shoulder pain: have we been seduced by the hype? <i>Invited speaker: Jared Powell</i></p> <p>3:00 – 3:15PM Experiences of student circus arts performers undertaking a shoulder rehabilitation program via telehealth consultation during the COVID-19 pandemic. <i>Speaker: Charlotte Ganderton</i></p> <p>Room: M 3</p>	<p>Women’s, Men’s & Pelvic Health Theme: Policy and advocacy</p> <p>Advocating for physiotherapy in pelvic health. <i>Panel: Simon Tatz, Jason Crow, Natalie McConochie, Cath Willis, others TBC</i></p> <p>Room: Great Hall 1 & 2</p>	<p>Physiotherapy General Theme: Mixed</p> <p>2.30 – 2.45PM Addressing service gaps in rural health: evaluation of the allied health rural generalist pathway pilot in western New South Wales. <i>Speaker: Ellen McMaster</i></p> <p>2.45 – 3.00PM Evaluating cultural capability development in a first year physiotherapy undergraduate program – a cohort study. <i>Speaker: Nikki Nuske</i></p> <p>3.00 – 3.05PM The efficacy of physiotherapy for Aboriginal and Torres Strait Islander people living with chronic conditions: a scoping review. <i>Speaker: Lowana Williams</i></p> <p>Room: P 6</p>	<p>JoP Meet the editor</p> <p><i>Presenter: Mark Elkins</i></p> <p>Room: P 5</p>
<p>3.15 – 3.45pm</p>	<p>AFTERNOON TEA</p>											
<p>4.00 – 5.00pm</p>	<p>PLENARY 6 <i>Keynote speaker: Layne Beachley</i> CONFERENCE CLOSE Great Hall 1 & 2</p>											
<p>7.00 – 11.30pm</p>	<p>CONFERENCE DINNER TROPICAL BEACH PARTY</p>
